BRITISH JOURNALS DEMAND JAIL DELIVERY

Out Of The Gloaming.

Clear proof that there is a world conspiracy against England—Japan is opposed to air-bombing for Police purposes.

* * * *

The India Defence League announces that it is flooded with letters and subscriptions, and now it will have a luncheon in London. A reward, with the help of others' money, for those who have already joined, and an encouragement for those who haven't.

* * * *

"The new India that is evolving," says Sir Austen Chamberlain, "will require Britain's best men as Viceroys, Governors or in the Civil Service." And Britain's best men will still be after the salaries.

* * * *

The changes now in process of taking place, said Sir Austen practically amounted to a revolution. But there won't be any revolution in the financial arrangements.

* * * *

A vote for Sir Edward Grigg, an apostate Tory, says Lord Rothermere, himself an apostate Liberal, by the way, will be a vote for the ruin of Lancashire and the loss of India. And that, you may be sure, is just what Grigg is saying about his rival.

* * * *

Mr. Mahadev Desai appeals that whatever respect one may possess for him should be promptly transferred to THE TRUTH. A sort of transfer entry, we believe, before finally "writing it off." These semi-demi-saints are such hefty book-keepers, well versed in double entry!

* * * *

Mr. Horniman wrongly believed, we should consider, that Ashram life did not encourage charity and kindliness towards lesser, but sinning mortals. Mahadev Desai has now released for the "F. P. J." readers just the kind of letter that ought to elevate them morally, full of that deep humility in which the late Mr. Uriah Heep specialised, providing the model which Mr. Sadanand faithfully follows.

* * * *

The Welfare of India League held its adjourned annual meeting and passed the report. The Welfare of India is now at a discount, and the stock of the Indian Defence League and J. P. C. has gone up. The League in India should hold a luncheon or two to popularise its activities.

* * * *

Hitler's kept Trade Union has voted for Mussolini's Fascist representative at the Geneva Labour Conference, on the ground that the former represents ten million German workers,—who haven't got a voice of their own nowadays.

* * * *

Japan has decided to boycott Indian cotton and buy dearer American cotton, just to spite India. Boycott is becoming awfully fashionable everywhere except in India where Ordinance Acts make it rather a luxury.

* * * *

A deputation of M.L.A.'s is going to wait on the Home Member to discuss recent incidents in the Andamans. We can give the answer they 'll get in advance.

* * * *

Sir Harry will tell them that everything is all right, since an expert who can deal with hunger-strikers on a mass scale and very effectively too, has been called in and only communiques are now needed. And his own Department is quite capable of turning them out as required.

* * * *

H. M. V. Gramophone is at work, and the cry of yellow fever is obediently and even dutifully taken up in the Corporation. The Commissioner is to be asked "to rouse public opinion" and deal adequately with the "tiger mosquito". It should be a great sight when Don Alfonso Mango and the Commissioner start swatting that tiger.

* * * *

L. R. T., like a good "sportsman," wants to have a stadium, for his gambols and other quick-change exhibitions we suppose. His ambition has swelled and his horizon broadened and Corporation Hall has become too small a world for him to conquer.

* * * *

"Do not bother about pledges" urges the head of the Cecils. The warning is unnecessary,—in India at least. We have long since ceased to take them seriously.

A man entered an Aberdeen shop and bought an attache case. "May I wrap it up for you?" asked the assistant.

"Oh, no, thank you," returned the man; "just put the string and paper inside."

INDIAN APPEAL CARRIES GREAT MORAL WEIGHT

"Spectator's" Plea For Release Of Politicals

Will Govt. Pay Attention To "Remarkable Telegram" Asks New Statesman

LONDON, June 9.

The significance of the appeal of 60 Indians for release of political prisoners is stressed by the "Spectator" and the "New Statesman".

The former urging Government to give their most serious attention to it, says that the appeal carries the great moral weight of the most responsible spokesmen for India who know their country and desire that reforms should succeed.

WITHOUT HER GOODWILL

The paper says the new constitution cannot be satisfactorily applied without India's goodwill. The Government should consider whether at the present moment, when Civil Disobedience is out of favour, release of political prisoners would not produce a better atmosphere for reforms.

"REMARKABLE TELEGRAM"

The "New Statesman" also hopes that Government will pay attention to the "remarkable telegram", the significance of which lies in the signatories who are headed by Dr. Tagore and include men who have held the highest offices under the Crown as well as influential landowners, representative businessmen and eminent religious leaders.—Reuter's Special Service.

GREEK PREMIER DETERMINED

Culprits To Be Brought To Book At Any Cost;

(Special Cable)

ATHENS, June 9

Considerable excitement is noticeable in the opposition circles following the arrest of suspected official Svrote according to a semi-official Greek agency. Government reinforced its severe methods maintaining order. M. Tsaldaris, Premier, ordered that those implicated in the attempted assassination must be apprehended no matter howsoever highly placed they may be.

SPLIT LIKELY IN INDIAN RANKS

Muslim Round-Tabler Endorses Setalvad

CAWNPORE, June 9.

Mr. Hafiz Hidayat Husain, M. L. C., C. I. E., informs the Associated Press that he was invited to tender evidence before the Joint Select Committee, but he had to refuse the offer owing to his wife's illness.

SPLIT LIKELY.

Asked about his views regarding Sir Chimanlal Setalvad's statement appearing in the Press to-day, Mr. Husain endorsed every word of it and added that when he was in England at the first sitting of the First Round Table Conference he said he would readily join the batallion to press for the national demands, if the Muslim points were conceded. From the sayings of Bhai Permanand, Mr. Nanakchand Chablani, Mr. R. K. Mukerji and Doctor Moonje he thought there would be a split again in the Indian ranks.—A. P.

JAP THREAT TO BANDITS

Complete Annihilation if They Stuck To High Ransom For Britons

(Special Cable)

DAIREN, June 9.

Threat that Manchukuo or Japanese troops would annihilate the pirate gang holding the three Britons if release of the kidnapped men was upheld any longer has been made by Councillor Wang of the Bengtien Government. This followed an exorbitant demand by the kidnappers for one million dollars, whereupon Mr Wang met the bandits and offered on behalf of the Manchukuo Government thirty thousand dollars for the release of the captives, adding the threat that if vacillation continued stronger action would be taken.

STOP PRESS

GANDHIJI'S PROGRESS RETARDED

POONA, June 9.

Gandhiji's weight again showed another drop of one pound this morning when he was 87-14 pounds. Since yesterday he has given up vegetables and is now on milk diet only with oranges.

Medical authorities, however, affirm that he is free from any complications and not ill at all. They hope that on increased milk diet he will be able to put on weight and make good progress. Considering his slow progress the impression is getting stronger that he will be unable to participate in any protracted or strenuous discussion for at least another fortnight. As such, it is very likely that the Conference of Congress leaders might not take place on about 15th as expected, but much later. It is stated that nothing has yet been decided regarding this.

A distinguished visitor to Parnakuti this evening was Rt. Hon. V. S. Srinivasa Sastry who has arrived here from Madras to participate in the forthcoming anniversary meeting of the Servants of India Society. Mr. Sastry had more than quarter of an hour's talk with Gandhiji.

Mrs. Naidu who has been keeping indifferent health all these days is having a sligh attack of fever and is laid up.—A.P.

FRANCE JUBILANT OVER PACT.

PARIS, June 9.

Determination to do everything possible to make the World Economic Conference a success was expressed by M. Daladier speaking in the Chamber. He also soundly defended the Four Power Pact as doubly advantageous for France an the cause of peace. He outlined France's policy at the London Conference as follows:

Referring to the Four-Power Pact M. Daladier thanked Sgr. Mussolini for his conduct of negotiations and reiterated that the Pact was no directorate but only an agreement to concert. There was no more question of Germany's rearmament. The Pact was key to all rapprochement at Rome.

He deplored misunderstanding which long separated two great Latin Nations. M. Daladier with other members of French Delegation to the World Conference is going to London on Sunday.

M. Daladier is returning on Wednesday.—Reuter.

ANDAMANS PRISONERS

No Official Recognition Of Relief League

GOVT.'S REPLY TO MITRA

Nor Will They Publish Names Of Hunger-strikers

CALCUTTA, June 9.

The following letter has been received from Mr. T. Sloan, Home Department, Government of India, Simla, in reply to the telegram sent by Mr. S. C. Mitra, M.L.A., President, Andaman Prisoners' Relief League, Calcutta:—

I am desired to acknowledge the receipt of your telegram, dated, May 29, on the subject of the hungerstrike of prisoners in the Cellular Jail, Portblair. The Government of India regret that they cannot give official recognition to the Andaman Prisoners' Relief League or enter into correspondence with it on the subject of the grievances of prisoners in the Andamans. For these reasons this letter is addressed to you in your personal capacity and not as President of the League.

NAMES WILL NOT BE PUBLISHED

The Government of India do not consider it desirable or necessary to publish the names of the prisoners who are on hungerstrike. They will give in the form of communiques any information as to the progress of the strike or the condition of the prisoners which they think should be published. Interviews with prisoners are regulated by rules under which applications for interviews should be made to the Superintendent of the Jail, who may refer the applications to the Chief Commissioner. The Government of India see no reason to interfere with the discretion granted to the Superintendent and the Chief Commissioner in this matter.—A.P.

The Association also passed a resolution exhorting members, who are M. L. A.'s to take up the question in the next session of the Assembly.—A. P.

PROPOSED TARIFF TRUCE

Dutch Govt. Agrees With Reservation

(SPECIAL CABLE.)

HAGUE, June 9.

The Dutch Government is willing to agree to the proposed Tariff Truce with the reservation that if further difficulties arise endangering the economic situation of Holland before the opening of the World Economic Conference, Dutch Government would immediately take the necessary steps for the protection of her interests. The Government considers that the importance of Tariff Truce has been impaired by the action of certain countries in choosing the present moment for bringing up international commercial difficulties. This is the substance of reply addressed by the Dutch Government to the League of Nations.

LIFE AND DEATH QUESTION

TOKIO, June 9.

With Britain owning one-fifth of the world, the action of Britain and India in taking steps to shut out Japanese goods raises a question of life and death for Japan, declared the Foreign Office spokesman.

He added that anti-Japanese tariff developments are now the most serious problem facing the Japanese Government and may possibly necessitate a protest and retaliatory measures, though he was still hopeful of an amicable settlement.—Reuter.

PRINCES TO DISCUSS ALWAR AFFAIRS

Standing Committee Extraordinary Meeting 'In Camera' At Patiala House

An extraordinary meeting of the Standing Committee of the Chamber of Princes was held on Friday afternoon at the Patiala House, Bombay.

Strict secrecy as to the agenda and other details of the meeting is being observed. However, from the atmosphere and from the movements of the members of the Standing Committee and the Chamber, it is believed that the question of the manner of the representation of the small States into the All-India Federation was taken up first.

ALWAR ECHO

It is further believed that the situation arising out of the recent action of the Government in connection with the Alwar State and its internal administration, in asking the Ruler to hand over the conduct of the State to the Paramount Power for a period of two years, thus interfering with the internal affairs of that State, will be reviewed in the course of the sitting.

Among others, the following attended the meeting: The Maharajas of Bikanir, Dholpur, Patiala, Alwar, Sangli and the Rana of Wakaner.

SHAUKAT ALI SEES PATIALA.

Maulana Shaukat Ali visited the Maharaja of Patiala and spent a long time in private consultation with His Highness. His son, Mr. Zahid Ali, has placed his services at the disposal of the Chancellor and is looking after the arrangements of the present meeting.

His Highness the Maharaja of Alwar arrived from Mt. Abu by the Kathiwar Mail yesterday morning. He was received at the station by Maulana Shaukat Ali, Mr. Sharma, the Acting Secretary of the Princes' Chamber, and others.

The Maharaja of Alwar entered the Patiala Palace, to attend the meeting, with his usual turban and necklaces.

COMMITTEE MEETS TO-DAY AGAIN

The Secretary to H. H. the Chancellor, Chamber of Princes has issued the following to the Press:—

Weekly Market Report

(From Our Special Correspondent)

Bombay, June 9.

MONEY.

Money ruled fairly easy with call funds quoted at about 1 to 1-1/4 per cent. Government accepted Rs. 1 crore Treasury Bills at the average rate of 1-2-5 per annum but they have increased the amount of tenders to Rs. 1-1/2 crores from next week. In increasing this amount Government were probably guided by the following reasons —

(1) Applications for Treasury Bills are forthcoming in larger quantities at cheaper rates of interest.

(2) Government have to meet maturities to the extent of Rs. 1-1/2 crores evary week throughout June and also to pay for purchases of sterling.

Furthermore about Rs. 5 crores are due for repayment on 4 per cent. Conversion Loan 1931-36 which Government are paying off on 15th June.

The Public Deposits with the Imperial Bank of India on the other hand are small amounting toabout Rs. 6 crores while borrowing against Ways and Means also stands at Rs. 6 crores showing an increase of Rs. 2 crores over last week. The trade demand as shown by the latest statement of the Imperial Bank of India shows a fall in the Inland Bills portfolio of the Bank. The following are the fixed deposit rates:—One month 1-1/4 p.c.; two to three months 1½ p.c. and six months 2 p.c

The statement of the Imperial Bank of India as on 2nd June 1933 shows a decrease of Rs. 166.69 lacs in the cash balance of the Bank now standing at Rs. 19,33,67,000 as compared with Rs. 12.87 crores at this time last year.

The percentage of cash to liabilities is 23.43, a decrease of 1.91 p.c. on the week.

Loans and Cash Credits are increased by Rs. 9.09 lacs and Rs. 17.54 lacs respectively while Inland Bills discounted are down by Rs. 101.35 lacs.

Government deposits have declined by Rs. 65.61 lacs to Rs. 5.93 crores, while other deposits are up by Rs. 29.56 lacs to Rs. 75.10 crores. The bank rate stands unchanged at 3½ per cent.

UNDERTONE WEAK IN GILT-EDGED.

Although the price of Gilt-edged securities were maintained during the major portion of the period under review, the undertone was weak throughout and there was a sagging tendency towards the close of the week.

There was a fall in all securities and the volume of business transacted was small. Even the turnover in 3½ per cent. Paper was negligible, speculators keeping out on account of the uncertain International situation.

The quotation for 3½ per cent. Paper, after improving to Rs. 81-9, declined and closed at Rs. 80-8. 3½ per cent. 1047-50 Loan opening at Rs. 92, gradually eased to Rs. 91-12. 4 p.c. 1960-70 Loan improved to Rs. 94-5; but dropped to Rs. 93-13 at the close.

4 p.c. 1943 Loan is almost unchanged at Rs. 100-4, while 1934-37 Loan gained about three annas to Rs. 100-14.

4½ p.c. 1955-60 Loan kept steady at Rs. 102 throughout the week, but slightly eased at the close to Rs. 101-15.

5 p.c. 1939-44 Loan steadied to Rs. 104-6, while 1940-43 closed at Rs. 104-12.

5 per cent. 1945/55 Loan advanced to Rs. 109-15, closing at Rs. 109-12.

5½ p.c. 1938/40 Loan is quoted at Rs. 106-5. 6½ per cent. Bombay Development Loan rose to Rs. 106-12, but declined and closed at Rs. 106-10.

6½ p.c. Treasury Bonds slightly eased to Rs. 106-4 at the close.

TREASURY BILLS.

From 1st June 1933 Government have increased the rate of Postal Cash Certificates from Rs. 8 to Rs. 8-4 for each Rs. 10 denomination.

WORLD ECONOMIC CONFERENCE

June 12, the date fixed for the meeting of the Conference is drawing near and the eyes of the world are centred upon its opening. All markets are keenly awaiting the developments and progress of the Conference.

STERLING EXCHANGE STEADY.

Exchange.—In the sterling exchange market, rates were maintained throughout the week with a limited turnover. Sellers of ready T.T. quoted at 1s. 6-1/32d. with buyers at 1- 6-3/32d. though occasional business was placed at middle rate.

The strength was largely a reflection of conditions in outside markets and on merchandise exports, since fresh business in connection with export of gold was very small.

Tenders at this week's bidding were large amounting to Rs 2350000 and Government allotted only 42 per cent at 1s 6-1/16. This came as a surprise to the local market, and it is believed the major portion of the tenders came from Calcutta, where money was reported to be in demand yesterday.

The following is the forward rate:—June to Sept. 1/6-1/32d.

The dollar-sterling quotation advanced from dol. 4.00 to dol. 4.10 towards the close of the week. The Paris-London cross rate opened at 85-15/16 and stood almost steady at 86 throughout, but closed easy at 85.60. The Belga is quoted at 24.18 and the Italian lira at 65.81.

A Press communique of June 6, stated that sterling purcrased by Government during the week ending June 3, 1933, amounted to £811,000 and since 1st April amounted to £8,414,000.

Another communique of June 7, stated that tenders to the amount of £2,350,000 at 1s. 6-1/16d. were received and allotted approximately 42 per cent. £1,000,000 will be offered for tender on Tuesday, June 13, on the same conditions as previously announced.

GOLD ERRATIC

Gold.—Somewhat erratic movements characterised the gold market this week. Chile the tone was quiet during the early part, a distinct by steady tendency prevailed towards the close.

Fresh business for export was, however, restricted and arrivals which continue on moderate scale were used in fulfilling outstanding contracts. The price of ready, after improving to Rs. 30/ in midweek, declined to as low as Rs. 30/1 on Wednesday, but recovered and closed at Rs. 30/5 per tola.

In London the quotation for gold after opening at 122sh 4d improved to 112sh 6d and after declining to 122sh closed at 122 2-1/2d.

The price of sovereigns moved down in sympathy, ready being quoted at Rs. 19/9 in mid-week. At the close, however, the quotation rose to Rs. 19/10 for ready and Rs. 19/9/6 for forward delivery.

Last week's shipment of gold per s.s. 'President Garfield' amounted to Rs. 12,70,962 and per s.s. 'Carthage' to Rs 1,11,60,740. The daily offtake continued unchanged at about 3,000 tolas, with stocks approximating about 4 lacs tolas.

The highest and lowest rates in our market were Rs. 30-4-6 and Rs. 30-1-0 for ready and June 9, settlement and Rs. 30-4-3 and Rs 30-1-6 for July 8, settlement.

The total imports during the week amounted to Rs. 147,701 in bar and coin.

SILVER COMPARATIVELY STABLE

Silver—Comparatively stable conditions prevailed in silver market with minor day to day fluctuations. The market is refraining from fresh business as there is a general tendency to wait for developments in connection with this metal at the World Economic Conference.

It is generally believed that silver markets in the world will be subject to violent fluctuations depending upon the attitude of important nations on the question of the rehabilitation of silver.

The price of ready in the local market ranged between Rs. 58/4 and Rs. 57/15, while the quotation for the July settlement still command a premium of about 10 annas.

The daily offtake in the local market continued to be small at about 35 bars a day, while stocks amount to about 9800 bars.

In Shanghai the dollar improved from 1s 3-1/16 to 1s 3-3/16d. The highest and lowest rates in London during the week were 19-7/16d and 9-3/16d for ready and 19-1/2 and 19-1/4d for forward.

In our market the highest and lowest rates were Rs. 58/4 and Rs. 57/15 for ready and June 12 settlement and Rs. 58-12 and Rs. 58/7 for July 12, settlement.

The total imports during the week amounted to Rs. 38,602 in coin.

ENCOURAGING OUTLOOK IN TEXTILES

Shares:— Animated conditions prevailed in the Stock Exchange particularly in the cotton mill section, following the imposition by Government of an additional duty of 25 per cent on cotton textile imports of non-British manufactures.

The import duty has been raised from 5-1/4 annas to 6-3/4 annas per pound on plain greys and 'ad valorem' duty is raised from 50 per cent to 75 per cent with effect from Wednesday the 7th June.

The cotton industry has been in need of protection from foreign competition. It is too early to judge the benefits of this increase in duty to the cotton industry since large stocks of cheap foreign cloth have been accumulated in Bombay in anticipation of the Tariff change.

The big shares advanced by 10 to 30 points though there was slight reaction towards the close on profit taking.

The following are the fluctuations in some of the leading shares:—

Bombay Dyeings Rs. 813/12, 831/4, 816/4; Century Rs. 267/2, 268/12 260; Central India Rs 342/8, 351/4, 343/12; Crescent Rs. 60, 65 65; Fazulbhoy Rs. 365, 388/12 378/12; Kohinoor Rs. 167/8, 177/8, 171/4; New Great Rs. 146/4, 152/2, 147/8; Pearls Rs. 197/8, 211/4, 210; Simplex Rs. 98/12; 101/4xd, 100, and Swadeshi Rs. 238/2, 255, 250.

MISCELLANEOUS SHARES STEADY

The shares in the miscellaneous section ruled steady with large turnover particularly in Steel group. Even here there was some reaction at the close upon profit-taking.

Tata Iron Ordys. improved to Rs. 54 but declined at the close to Rs 52/4 and Defds. from Rs 226/4 to Rs. 231/4, closing at Rs. 222/8. Tata Hydros improved to Rs. 146/14 closing at Rs. 145/10. Tata Power Shares rose to Rs. 952/8 and Andhra Valleys from Rs. 1372/8 to Rs. 1380 closing at Rs. 1377/8. Alcocks shares advanced to Rs. 132/8 and Bombay Burmahs to Rs. 478/12, receding at the close to Rs. 181/4 and Rs. 466/4 respectively. Bombay Trams were quoted at Rs. 130/15 and Bombay Steams at Rs. 281/4.

Bundi Cement shares were unchanged at Rs. 23, while India Cements rose to Rs. 257/8. Kalni orys. after improving to Rs. 266/4, close at Rs. 265, while Defds. declined from Rs. 990 to Rs. 957/8.

In Railway shares, Ahd. Frantij is quoted at Rs. 782/2. Amritsar Patti at Rs. 111 and Tapti Valley at Rs. 675.

Imperial Bank shares were steady. Fully paid shares being quoted at Rs. 1212/8 and Contributories at Rs. 292/8. Bank of India shares rose by Rs. 1 to 103/3 and Central Bank shares from Rs. 21/14 to Rs. 22/4.

Calcutta.—The price of hessians in the Calcutta market improved from Rs. 11/9 to Rs. 11/14 with Jute shares quietly steady.

Finest Car Company Has Ever Built

Ford Manager Announces Impending Introduction Of New "Model 40"

Mr. John L. Chidsey, Managing Director of the Ford Motor Company of India Limited, announced officially yesterday that the impending introduction of the largest, finest and most powerful automobile that the Company has never built may be expected in India in the very near future.

The New Ford V-8, announces Mr. Chidsey, is to be known as "Model 40", is 6" longer in wheelbase than the model it supersedes and now has a wheelbace of a 112"; while the overall length is a 177"—an increase of it."

It is powered with a motor which, in basic design, is similar to the original V-8, but which has been substantially refined and improved.

The most important engine change is the fitting of all aluminium cylinder heads, which permit the use of a higher compression; this materially assisting in giving an increase of 10 Brake Horse Power, bringing the total Horse Power developed up to 75. Because of the greater efficiency of this engine, due to the refinements in design, it has unusual fuel economy and swifter acceleration.

Another innovation is the new double-channel, double-drop "X type" frame, which provides a substantially stronger chassis.

STREAMLINING

The New Models are in keeping with every latest trend toward streamlineing. The radiator is sloped back and the flowing lines of the closed cars have been accentuated. A new departure is the skirted effect on the fenders. The windshield has a 20deg. slope, whilst there is a reverse curve to the rear quarter. An apron covers the petrol tank.

SPEED.

Whilst the current V-8 has a top speed of about 70 miles per hour, the New Car has a top speed of over 80 miles an hour and a sustained speed, over distances, of 80 m.p.h., in comfort. An extraordinary feature of the New Car is the second gear performance, 60 m.p.h., in silent second gear being reached with ease.

The New Model will be available in 14 body styles and although no statement as to price has yet been made, it is believed that the prices will closely approximate those of the 106" wheelbase car which the New Model supersedes.

STYLES.

The body styles will include Phaeton, Tuder, and Forder Sedan, Roadster, 3 and 5 window Coupes, Victoria and Cabriolet. In all closed models, the front seats are to be fully adjustable and interior fittings are luxurious. Leather upholstery is promised and a wide choice of body colours will be available. A definite "luxury" note is struck in having all closed models fitted with wireless reception apparatus as standard equipment.

For those who prefer it, a four cylinder model, on the same wheelbase, is available. Identical in appearance with the New V-8, the difference lies mainly in the appointments and fittings and as a V-8 Engine takes up no more room than a "4", length and body room is in no way affected.

"KING OF THE JUNGLE" AT PATHE

A great pack of lions in their lair in an African jungle, ruled by the Lion Man, a strange white man who speaks only the language of the lions, the capture of both lions and Lion Man by a circus man, a burning circus and a terrific stampede of both animals and human beings—these are a few of the salient features of "King of the Jungle", a tremendously stirring melodrama now being shown at Pathe Cinema.

The audience is caught in the excitement of the narrative from the opening scene, and find it impossible to relax until the final fadeout, so expertly have the Directors Bruce Humberstone and Max Marcin handled the action. The whole film moves at a terrific pace, and the stampede scene in which a herd of Elephants runs wild in busy city streets, overturning buses, smashing automobiles, tearing up water hydrants and crashing through windows, has seldom been duplicated for thrills.

The film is also unusually interesting in its leading player, Buster Crabbe, swimming champion of renown, selected for the role of the Lion Man following a nation wide search, gives an amazingly fine performance. He has, of course the magnificient physique which was required for this herculean character—a young man brought up from the age of three by a pack of lions. But in addition, although "King if the Jungle" marks his first appearance before the camera, he proves himself to be an actor of ease, intelligence and charm.

According to the story, Kaspa, the Lion Man, has grown up in big jungle, haypy with his lion friends, and knowing nothing of the outside world, until he and four of his lions are captured and shipped to America to become a part of of a circus. During an argument with a customs official in the harbour, Kaspa, escapes. While dodging the police, he climbs through an apartment window, attracted there by the sight of food on a table, and is discovered by the two occupants of the apartment, Anne (Frances Dee) and Sue (Nydia Westman). Anne is a school teacher who has a weakn for stray cats and dogs, and knows instinctively how to handle Kaspa. As instinctively, he trusts her, and she proves so indispensable that when Kaspa is taken back to the circus, the circus owner asks Anne to come along as his teacher.

A year later Anne and Kaspa are in love. She wants him to leave the circus and return to his newly found family in England. But Kaspa has one idea—to make enough money to buy his lions and take them back to their home in Africa. He is about to agree with Anne, however, when a fire breaks out in the circus, endangering his lions. His heroic rescue of his jungle friends convinces the girl that Kaspa's plan is the better one. The two of them therefore take the lions back to Africa, release them, and Kaspa becomes game guardian of the district.

Frances Dee is charming as Anne, and, in addition to Miss Westman, the supporting cast includes Douglas Dumbrille, Robert Adair, Florence Britton, Ronnie Cosby, Robert Barrett, Sam Baker, Patrilia Farley, Sitnty Toler and Irving Pichel.

"FLESH" AT CAPITOL

Stirring Film With Wallace Beery At His Best

For those who like red-blooded action in addition to the comedy and pathos of a heart drama that stirs the audience to tears, Metro-Goldwyn-Mayer offers Wallace Beery in "Flesh," which opens to-day at the Capitol Theatre.

Beery scored one of his greatest triumphs of his career in a prize-fight picture, "The Champ." His present vehicle, which deals with the wrestling racket, is a worthy successor.

"Flesh" is more than a wrestling picture. It is a drama that goes behind the scenes. Beery, a great bulk of a man, is a wrestling waiter in a Berlin beer garden. There he meets Karen Morley, an American hoofer, whose dancing partner has involved her in a crooked deal which lands both in jail. When she is released, Beery befriends her and puts her up in the house where he lives with his frinds who own the beer garden.

DUPES HIM INTO MARRIAGE.

Through Beery's efforts Miss Morley's lover gets out of jail and to free himself of the girl dupes her into a marriage with Beery. A child is born, Beery becomes the wrestling champion of Germany, and the little family move to America. There Cortez again takes a hand in Beery's affairs, steering him into a "faked" match for the world's championship.

There are gripping dramatic scenes in the picture, the comedy is delightful, and Beery stages some exciting matches with famous matmen, including the former world's champion, Wladak Zbyszko.

John Ford, admired for his able direction of "Arrowsmith" brings out all the emotional values that abound in "Flesh." Jean Hersholt, John Miljan, Vince Barnett, Herman Bing, Edward Brophy and Greta Meyer, in addition to Karen Morley and Ricardo Cortez, help Wallace Beery to reach new entertainment heights in this splendid production. The programme includes a new Flip the Frog Cartoon.

SECOND WEEK OF "NAGANA" AT EXCELSIOR

As was expected the picture "Nagana" drew crowded houses at the Excelsior Theatre last week and as many people could not get seats, the management have decided to continue it for a second week.

"Nagana" is a vibrant, thrilling love romance with a background presenting the picturesque interior of the Dark Continent, as few pictures have done. It has presented thrilling wild animal sequences and when quite a number of ferocious beasts, including lions, leopards and panthers, are confined in a single flimsy laboratory erected in a native village, there follow hair-raising scenes which must be seen to be appreciated. If you enjoy thrills and breathless suspense do not fail to see it.

DEVIKA RANI (Mrs. Himansu Rai), who plays the role of the Maharani of Sitapur in "KARMA." ("Chronicle" exclusive).

(By MICHAEL THOMS.)

Is the human body "rude"? Bedroom and bathroom scenes are the most frequent targets when criticism is aimed at the kinema. Yet the bed and the bath are two common and necessary features of everybody's life. Moreover, the British Board of Film Censors does not allow the exposure of such parts of the body as have become associated with smoking-room fun.

You may agree that their restriction promotes suggestiveness. But, after all, the critic succumbs to the suggestions, if any, and is only shocked at what he imagines!

There are certain people who see obscenity everywhere. Recently U. S. customs officers were about to burn an "obscene photo book," which turned out to be reproductions of Michelangelo paintings in the Sistine Chapel.

That complex is found chiefly in certain walks of life. But now film fans have been known to register self-conscious complaints about nudity in films.

Their attitude belongs to the time when ladies' arms were not allowed to be reproduced ungloved in the papers. (You remember the well-known ammonia advertisement: "Try it in Your Bath"?)

Now Nudity in advertisements or illustrated papers is a commonplace. Yet—of all spheres of modern life the most modern—the film must be flannel-petticoated!

ART AND VULGARITY.

It is an idiotic criticism. "Rudeness," which varies from place to place, is only relative. When a film of some Oriental dancers was being made not long ago, they were filmed in the raw for the hardy states of Eastern Europe, semi-naked for France and Germany, and covered with filmy gauze for the consumption of this Nordic island. Who was "rude"?

"Ah, but there is a difference between art and vulgarity!" you say. There you stand self-condemned, as a hypocrite.

"Plain vulgarity can do little harm," confessed the report of the Commission on Educational and Cultural Films; "it is the steady stream of third-rate films passed for universal exhibition which is the danger, with its sentimental and sham-emotional standards of value applied to unreal people."

If you are morally hurt by vulgarity, you had better go and see a pathologist. And as for "art," many well-known pictures and statues have far more questionable origins or themes than the bedroom or bathroom.

If you consider nudity beautiful in painting or sculpture, how much more so when invested in the moving picture with all the grace of which the human form is capable?

To turn again to the Censor. He has certain reservations to his ban. You have all seen women in films stark naked without a tremor. There is hardly a jungle picture which has not its native actors, and the coffee-coloured belles in the recent topical of Bali island wore the scantiest clothing.

But isn't a body a body all the world over?

IS THERE DIFFERENCE?

"That's different. The natives are not civilised," you retort. But civilised men took the pictures, and civilised audiences see them. Are we to apologise for or condemn peoples who have taken for granted a freedom in bodily exposure that we civilised nations are just beginning to appreciate?

Ufa's "sun-bathing special" signals the fact that the world is realising that bodies are no more rude than babies. It is unfortunate that this and the Bali travelogue have been cited as examples of the good box-office appeal of nudity.

Supposing this is true, though, shall we throw up our hands and say that the public is hopelessly immoral? Or shall we say that this nudity is a sign of the saner and more healthy attitude to the "human form divine" (It wasn't a modern who said that) that is prevalent to-day?

If we believe in the essential goodness of human beings, we must believe the latter. If the Censor and his supporters are right, then they must censor the bathing beaches, the parks—everywhere. If nakedness is naughty, you can get an eyeful of untold moral harm anywhere if you only look for it hard enough.

But if they are wrong—and the present generation of film-goers seem to prove that they are—let them stop pin-pricking about what parts of human topography are out of bounds.

There is plenty of urgent work to do. There are prurient plots to clear up, false values to destroy, bad publicity methods to abolish (both the Ufa film and the Bali topical suffered from the last).

And if they want any help, most filmgoers could name dozens of rotten films that got by, while serious essays in life's problems like "Outward Bound" and the recently banned "Life Begins" were vetoed.—"Picturegoer."

MR. ROBINSON CRUSOE.

Go and help the film stars laugh at themselves! This latest effort of Douglas Fairbanks is distinguished by the prettiest sense of humour we can recall upon this screen.

What Doug. has done is to poke fun at all the super films he ever made. Where he used to jump ten feet in the air, he now jumps twenty; where he used to fight a strong force of men single-handed, he now faces a whole cannibal horde—and, of course, gets the better of them.

It is all very good fun; the story of a modern Robinson Crusoe, who builds himself a magnificent house in a few weeks—complete with carpets, curtains, blinds and wireless. And all with[out] pieces of wood and a [ham]mer for their own good.

"THOU SHALT NOT"—IN CONTRACTS

A contract can be a formidable thing, full of fierce regulations! observes the "Film Pictorial." For instance, James Dunn has a contract-clause that prohibits his weight to exceed eleven stone. On the other hand, Marie Dressler's studio has laid down that she must not attempt to reduce. The world of the stars is full of contrary contract clauses such as this.

Maurice Chevalier's fascinating French accent was partly responsible for his meteoric rise to fame. His studio, realizing this, added a clause to his contract that forces Maurice to preserve this French accent at any cost.

Conversely, Lili Damita's studio did not consider her broken English an asset. And, behold! her contract contained the rule that she must lose her French accent within six months! Not easy, you say. Quite. But it is all in the star's day.

Most Hollywood contracts contain a "Morality Clause". This forbids the star to involve himself or herself in any unsavoury scandal, likely to reach the newspaper headlines. Those who have broken the moral code in Hollywood have paid dearly. They have become blacklisted—temporarily or permanently, according to the nature of the offence.

A star with any peculiar characteristic — "Schnozzle" Durante's nose, Joe E. Brown's outsize mouth, and the immortal crossed eyes of Ben Turpin—is not allowed to attempt the modification of any such characteristic. Joe E. Brown, for example, is not permitted to grow a moustache. This would detract from the comedy value of his mouth. Polly (Plain Jane) Moran provoked a storm in her studio when it was discovered that she had not only acquired an attractive set of false teeth, but also had been visiting a beauty-surgeon to improve the appearance of her nose.

Sometimes a star is forbidden to make films for another company during the annual holiday. A classic example of immunity from this clause was that of a Constance Bennett who received £6,000 a week from a rival producer during her holiday from her own studio.

The stars will sometimes stipulate this and that in connection with their annual holiday. "I am not to be disturbed!" some declare. Certain studios would plead with a star to forsake the vacation and step into a ready-made role. The clause ensuring safety from this procedure prevents a company communicating with a holidaymaking star for any cause whatever.

Hollywood is very firm in seeing that its glamorous ladies keep their physical fitness, healthy vivacity, and schoolgirl complexion. This applies very firmly to the "Baby Stars"—those "sweet seventeens" on the threshold of a dazzling career. Maureen O'Sullivan's studio started to hint threats to the colleen when they considered that she was "going wild and sophisticated"—or, in their own lingo, "going Hollywood." Actually, Maureen was only "growing up!"

Very strange things creep into Hollywood contracts. They may appear ridiculous to the outsider, but the people who invent them know exactly what they are doing. The stars, too, realize that they are [do]ing for their own good.

SCREEN TOPICS

UNITED ARTISTS PRODUCTIONS

Bombay public will now have the opportunity of seeing the latest productions of the United Artists, one of the premier companies of America, which have been held over for a long time past, owing to some unexpected difficulties.

With the removal of their Indian head office from Calcutta to Bombay, last month, Capt. O'Connor, the manager, has made fresh arrangements for the release of the United Artists Pictures at the Wellington Cinema which has been renovated on modern lines. The new arrangement comes into effect with Eddie Cantor's big hit "A Kid from Spain" to be shown from to-day.

* * * *

COLUMBIA PRODUCTIONS

The Columbia productions will also be released by the United Artists at the Wellington Cinema. During his recent visit to London, Mr. O'Connor, after personally viewing over thirty pictures, was selected thirteen as most suitable for India. Among these are "So this is Africa" with Wheeler and Wolsey, "War Correspondent" starring Jack Holt and Ralph Graves, "Child of Manhattan" with John Boles and Nancy Carroll, "Washington Merry-go-Ground" with the well-known comedian Lee Tracy, "Night Club Lady" with Adolph Menjou and "Hollywood Speaks" with Genevieve Tobin and Pat O' Brien

EDDIE CANTOR'S LATEST

Androcles and his famous lions are to be the theme of Eddie Cantor's next picture for the United Artists, according to an announcement by Samuel Goldwyn, the producer. It will be an adaptation of the jumpy chicken-hearted little Roman slave and his legendary adventure in bravely marching into the arena of the Roman sport carnivals to present himself as an appetizing morsel to the fierce lions. Samuel Goldwyn's version will be a new and distinctly twentieth-century edition of the story, still retaining its background of antiquity.

MARY PICKFORD'S "SECRET."

* * * *

When Douglas Fairbanks was in Bombay some months ago, he announced that his wife, Mary Pickford, was engaged in a new picture the title of which was kept a secret at that time. That secret has now become an open secret, with the information that the picture has been christened "Secrets". In this, the old Mary Pickford of fifteen years ago comes back with all her demure deviltry, and her sparkling-eyed mischief. It opens with a hilariously funny sequence as she plays out the forbidden romance and elopement with Leslie Howard.

SHANGHAI GESTURE.

Among the highly successful stage plays is "Shanghai Gesture" which was a sensation on Broadway several years ago. It will be adapted to the screen immediately for United Artists release. The production has been undertaken by Art Cinema-Reliance of which Edward Small is the head. The theme is reported to be too daring for screen consumption, but still they are going to make the picture.

AN ESKIMO FILM.

The noise that ice makes in freezing was recorded by the busy microphones with the Metro-Goldwyn-Mayer Polar expedition filming ESKIMO in the Arctic. It seems that when great fields of ice breeze the expansion and contraction creates crackling noises, sometimes very loud. These were recorded for the vivid drama, being filmed by Col. W. S. Van Dyke with a native cast.

* * * *

"WHITE SISTER."

Among the latest production of the Metro-Goldwyn-Mayer to win public acclaim is "The White Devil" starring the charming Helen Hayes Clarke Gable and Neely Edwards. The last named has a role that takes him back to his early days when he played the clown in a carnival.

A JEALOUS HUSBAND!

Janet Gaynor has sued her husband Lydell Peck, for divorce, asserting that he was unduly suspicious, jealous, and so cool toward her that she was caused great mental anguish! The pretty little actress also declared that his attitude interfered with the success of her screen work.

The couple separated shortly before Christmas. The break was evidently satisfactory to both sides, as each waived any interest in the earnings of the other. They own no community property.

So it is an advantage to be married to a successful screen actress when divorce looms darkly upon the horizon. Actresses with assured film futures rarely ask for alimony.

HE LIKES SKIRTS.

Viewing with alarm the mannish tendency among prominent faminine stars, Jesse L. Lasky, pioneer producer, has written other motion picture executives, asking them to unite with him in a movement to squelch Hollywood's trousers-wearing craze.

In his letter, Lasky stressed the "immeasurable harm that is being done the industry by stars who forget they are women and openly parade in man's attire.

"For myself," Lasky wrote, "I will continue to engage for my pictures, only those actresses who retion their feminine charm, regardless of how wide-spread the trousers vogue may grow.

"If persisted in, this vogue will destroy the very foundation upon which all motion picture drama is based—the retention of womanly attractiveness and charm."

Jeanette MacDonald and Ramon Novarro are to star together in a M.-G.-M. version of the well-known musical play, "The Cat and the Fiddle." Miss MacDonald, who is under contract to appear shortly in a British film, will return to Hollywood in August to fulfil her engagement with M.-G.-M.

WHAT'S ON AT THE CINEMAS

"THE KID FROM SPAIN" AT WELLINGTON

From to-day, the Wellington Cinema at Dhobi Talao is re-opening with many new improvements in the way of seating arrangements, lighting etc. on modern and up-to-date lines. The change synchronises with the new arrangements with the United Artists' Corporation of America, under which all their latest productions will be first released at this theatre. The popular "Mickey Mouse" animated cartoons and movietone "News Gazette" will also be included in the programme.

The opening picture will be United Artists' super-musical comedy "The Kid from Spain," featuring the famous pop-eyed comedian Eddie Cantor at the head of a brilliant cast including Lyda Roberti, Ruth Hall, John Miljan, Robert Young and Paul Porcasi. Tuneful Spanish music and exquisite dance-ensembles executed by 74 gorgeous girls chosen by Samuel Goldwyn from 8300 international beauties are a feature of the production, which is filmed on a most lavish scale.

Grand entertainment is promised by Eddie Cantor, the star of "Whoopee" and "Palmy Days," who sings in his peculiarly engaging way three song-hits, which are taken up in chorus by a bevy of dazzling beauties. Sidney Franklin, the sensation of 35 countries, will be seen for the first time on the screen performing the thrilling bull-fighting feats in scenes that are claimed to be fully authentic. The crowning sequence is a gay festival, which is a riot of beauty, colour, song music and comedy. The plot concerns a naughty lad, played by Eddie Cantor, who, after his dismissal from school, escapes to Mexico disguised as a famous bull-fighter, and wins in the arena by sheer accident when required to prove his claim. Every bit of his acting puts the audience into continuous roars of laughter. Additional entertainment is provided by "Mickey's Nightmare."

It might be mentioned that the "Kid from Spain" has broken all records in London and Calcutta.

"THE FRIGHTENED LADY" AT EMPIRE

"The Frightened Lady," a British Gainsborough picture, showing this week at the Empire Theatre, is a typical mystery thriller from the famous novel by Edgar Wallace. The picture also contains plenty of sure fire comedy and is splendidly acted by well-known players from the West End stage.

The story is briefly as follows: Scotland Yard is called in to solve the mystery of the strangling of Dr. Amersham in the grounds of a lonely mansion. In the house lives a tragic widow, her neurotic son, who is under her domination, and a young girl. The servants are obviously not of the usual kind and turn out to be the son's keepers. The son, who is mad, in end, shoots himself in his padded room and the mystery is cleared up.

The cast includes Cathleen Nesbitt, who, as the mother, dominates the picture. Norman McKinell is the dour Scotland Yard man and Gordon Harker is priceless as his assistant in a typical Gordon Harker part. Emlyn Williams and Belle Chrystal also give good performances.

"FRANKENSTEIN" AGAIN AT CARLTON

For weeks and weeks, "Frankenstein" had made thousands of picture-goers gasp with excitement in Bombay. By continued requests it is now once again being shown at the Carlton. "Frankenstein" is a shocker—no two ways about that. The Universal Company, which made "Dracula", planned to out—"Dracula" in this production, and they have done it. "Frankenstein" is without a doubt one of the most thrilling, most exciting and most dramatic pictures of the year.

Most readers remember the old time legend. The undoubtedly know that Frankenstein was the man who made the monster. Frankenstein was filled to the brim with ambition to create a creature which would walk and talk, breathe and eat like human beings. It was scientific zeal with him. So great was his absorption in this scientific task that he locked himself away from his friends, his family and even his fiancee, the beautiful Elizabeth.

But in spite of them all, he actually galvanized this eight-feet monster into life. But alas, the monster had the strength of twenty men and the shrewd, cunning, ruthless brain of a criminal. What happened Frankenstein could not control it; chains and walls could not restrain it; neither reason nor pity turned it from its ruthless course.

The title role of "Frankenstein" is played by Colin Clive while Boris Karloff dons the weird make-up of the manufactured monster. The cast also includes John Boles and Mae Clarke.

FAY WRAY and LEE TRACY in "DOCTOR X" to be shortly released at the Excelsior.

This talkie, produced by Mr. M. Bhavnani, is full of delightful songs and dances. The sound-recording and photography are very good. This fine talkie should not be missed by the public at the West End Talkies this week.

Robin Irvine, the young actor-husband of Ursula Jeans, has died of pleurisy during a holiday in a Bermuda. Miss Jeans, who was married to Mr. Irvine two years ago, is at present appearing in "I Lived With You" before returning to Hollywood.

"FIRES OF FATE" AT ROXY

The enchanting scenes of the Egyptian desert watered by the mighty Nile, and bordered by the historic pyramids, are a feature of the thrilling picture "Fires of Fate," coming this week to the Roxy. The drama is enacted by a strong cast, including Lester Matthews, Garry Marsh, Jean Cadell and Donald Calthrop.

The plot centres around Col. Egerton, who is shocked to learn from his doctor that he will die in a year's time, as a result of a spinal disease, which has attacked him. To escape the tortures of a slow death, he decides to commit suicide but is dissuaded by a friend to join in a cruise up the river Nile. During the journey Egerton falls in love with a pretty girl, but is afraid to declare it in view of his impending death. In the desert, the party encounter a gang of native bandits, and a blow received by Egerton in one of the fights cures him of his disease. The shadow of death thus removed from over his head, he declares his love after their rescue. Thrilling incidents abound in the story.

7TH WEEK OF SINHGAD AT MAJESTIC

Prabhat Cinetone's historical talkie picture 'Sinhgad' has become so popular amongst the Bombay cine-goers that the management of the Majestic Cinema have been obliged to continue this picture for the 7th week. The special feature of this particular picture is that it has become popular amongst all classes of people, rich or poor, literate or illiterate.

The story of the picture depicts the heroic martyrdom of Tanaji, the right hand lieutenant of Shivaji the Great. Tanaji made this supreme sacrifice to save the honour of a Rajpoot woman who was being harassed in the forto was being harassed in the fort of Kondana by the cruel hearted Udaybhanu, a Sardar from the Moghul Durbar.

The incidents of this picturue are thrilling and keep the audience spellbound throughout.

MARY PICKFORD WILL BE ALICE IN WONDERLAND

She Will See Barrie Regarding Peter Pan Pictures

"Curlouser and curiouser", said Alice. "Why, it's not the dormouse at all. It's Mickey Mouse!"

Of all Alice's adventures in Wonderland, the strangest was revealed with the announcement by Mary Pickford that she was going to film Lewis Carroll's immortal story in animated cartoon form, with Walt Disney, famous creator of Mickey Mouse, supplying all the characters, from the white rabbit and the walrus and the carpenter down to Jabberwocky.

Mary revealed her plans on her return from Europe as follows: "In the Alice picture as now planned, I am going to be the only human being, playing the part of Alice, all the rest being little comic Disney figures. It's a tremendous job for Disney, and it will take two years before he can complete the drawings."

Mary also announced "very young and immature" plans to film Peter Pan. "But I shall first see Sir James Barrie before attempting that," she added. "He once asked me to make Peter Pan pictures, but before attempting it I want to go over everything with him."

"CITY OF GOLD"

"Sonyachi Dwarka" or "City of Gold" is the enchanting name of a new Pauranick Marathi drama performed by the Anand Sangigt Mandali at the Bombay Theatre. The Company is a pioneer Marathi Company composed as it is of smart young boys and handsome little girls. The unusual feature of this Marathi Company is that the girls and girls only act the female parts. The Company has spent a good deal in setting up richly decorated scenes to suit the 'Pauranik' atmosphere. The acting of the boys and girls is fine and the singing also is charming. Special mention must be made of the beautiful part of Chandika played by the beautiful girl-actress Prembai. The drama is attracting crowded houses, even though it running at the Bombay Theatre for the last four weeks.

Phil Stong, author of "State Fair," is adapting his own story, "Stranger's Return," to the screen for M.G.M. Leading parts will be played by Lionel Barrymore, Clark Gable, and Miriam Hopkins.

"DR. X" A SCIENCE-THRILLER

ALL-COLOUR PICTURE COMING TO THE EXCELSIOR.

Based upon scientific phenomena observed in real life, "Doctor X," Warner Brothers' latest mystery-thriller will be shortly released at the Excelsior.

It is the first picture of its kind to be filmed entirely in technicolour. The story tells of a fiend incarnate, who roams the city, killing men and women only by the light of the fullmoon. After the best resources of the police have fail a noted "Doctor X" employs hi own beautiful daughter as a ba to catch the killer. The incidents develop to a gripping climax, and the atmosphere of mystery is sustained from start to finish. Despite this grim feature of the drama, the dominant feeling one experiences on seeing the picture is one of delightful entertainment which is helped by the plentiful comedy relief interspersed in the story. It is claimed to be different from any other picture of its type by reason of its novelty, the vastness of its conception and the outstanding excellence of its production as a whole. The technicolour effects were employed to heighten the mystery of the stupendous theme.

The carefully-selected cast is headed by Lionel Atwill, Fay Wray and Lee Tracy. Exhaustive screen-tests were employed to spot out the right kind of players with great dramatic ability, and what was more important, with the eye, hair and facial colouring required for the technicolour cameras.

"Solid" People On Screen

Hollywood Dream Is About To Come True

It has long been the ambition of the film magnates to produce stereoscopic movies—that is, movies which stand out from their background and look as if they were solid.

Dr. Herbert Ives, an Englishman who has for many years been working in America with the Western Electric Research Group, has now perfected an apparatus which produces this effect without requiring his audience to wear any special glasses—the objection to many previous systems.

It is not expected that stereoscopic films will go beyond the experimental stage for at least two years, a "Sunday Express" representative was informed at Bush House, the London headquarters of the Western Electric Company.

UNCANNY.

There are a number of difficulties still to be overcome, but when the stereoscopic pictures are eventually produced commercially it is expected that they will supersede ordinary talkies in the same way that talkies superseded silent films.

"The effect of these films is uncanny," said a manager at Bush House who had seen Dr. Ives' apparatus. "The figures look as if you could go up and shake them by the hand.

"Not only that, but each member of the audience sees a slightly different view of the picture, exactly as if they were looking at a stage of real people.

"For instance, a man's head, which is seen full-face by those in the middle of the theatre will appear in profile to those at the sides"

How does Dr. Ives obtain this effect? Briefly, the objects are photographed from an infinite number of viewpoints over a certain arc by means of a system of concave mirrors which reflect in a single cinema camera.

The resulting picture is, of course, a mere jumble, but it can be disentangled.

FROM ALL ANGLES

The camera divides it into a large number of minute strips, each being a tiny portion of the picture viewed from all those different angles.

The projector, which is on the opposite side of the screen to the audience, throws this picture on a screen composed of a large number of accurately-ground glass rods, each one of which receives the projection of one of the strips.

The effect of the glass is to split the strip up, by refraction, and send out the correct view to all qurters of the theatre.

The only difficulty to be overcome is the accurate projection of the strips of film to the glass rods. The slightest sideways movement is enough to destroy the whole effect.

NEW YORK DECLINED ON LIQUIDATION

Weather Conditions Very Favourable

TRADE DEMAND SLACKENING

Bombay, June 9.

The early upward trend caused by increased trade buying was reversed on extensive realising and liquidation resulting from the continued reports of fair weather over the entire cotton belt. In spite of the revived strength in Stock and Silver markets and the consequent improved trade buying, the prices of cotton ruled unsteady and the declining tendency was further accentuated by the uncertain Washington situation regarding acreage reduction. The delay in the announcement, it is learnt, is due to Congress approval being awaited for the appropriation of 150 million dollars. Operators and traders hesitate to enter into the market with fresh risks pending further definite developments over the reduction. The market however, maintained a firm and healthy undertone and the belief for a substantial increase in all commodity prices in the near future still prevails.

Business for July contract started in the American cotton market at a decline of 5 points from the previous closing rate. The easier trend seen at the opening was soon overpowered and prices advanced by 4 to 5 points on the support of improved trade buying induced by the encouraging condition of the stock and silver markets. July contract was traded for a time at 9.20 +.05 the highest level for the day. But this advance was only transient and a downward tendency soon set in owing to renewed realising operations influenced by reports of continued favourable weather and the resultant better crop progress. This delay in Government's announcement regarding the acreage reduction scheme has created an uncertain feeling amongst professional operators and traders, who hesitate to effect a liberal buying. Besides the market was also faced with some liquidating operations from Continental Houses and prices soon experienced a further drop. July contract was, thereafter, traded around 9.00, the lowest stage for the day. Though better reports on cotton goods and Yarn business are to hand prices could not regain the lost points in the absence of any fresh bullish development. Finally market closed at a net loss of 14 points July contract standing at 9.01 —.14. The market also underwent a decline of nearly 15 points and finished at 9.10 —.15.

Receipts at all U. S. Ports amounted to 10.000 bales and Exports 33,000 bales.

NEW ORLEANS.

In sympathy with the weakness in New York futures the New Orleans market also ruled rather weak and inactive July and October contracts having been finally quoted at 9.00 —.08 and 9.24 —.11. Ready cotton prices also experienced a decline of about 8 points and finished at 9.00 —.08.

LIVERPOOL COTTON EXCHANGE

Despite the expectation of an increase of 4 points, the Liverpool cotton market opened at a rise of 2 points July contract standing at 5.96 +.02. The market lost the earlier activity and a declining tendency soon set in owing to heavy preholiday liquidation from Egyptian and Continental Houses. The higher Exchange rate brought forth considerable stray selling and prices declined steadily. The unfavourable financial outlook coupled with the uncertainty caused by the delay on the part of the Government in publishing the acreage reduction programme stimulated the selling tendency and prices further declined July contract touching 5.81 —.13, the lowest level for the day. However, prices regained a few of the lost points and the market finally closed at a loss of 10 points July contract standing at 5.84 —.10. The spot market finished at 6.12 —.14.

EAST INDIAN.

A declining market. July and October closed at 5.24 —.10 and 5.29 —.10.

EGYPTIAN.

Prices lost about 11 to 7 points in the Egyptian Section Sakel and Upper July finishing at 7.90 —.11 and 7.07 —.07.

ALEXANDRIAN.

Market experienced a heavy decline of 28 to 23 points Sakel July and Upper June having been closed at 14.80 —.28 and 12.74 —.23.

Liverpool:—Recommend sell December Chicago Wheat purchase December Winnipeg Wheat present differences.

Liverpool:—Decline owing to favourable weather reports, unfavourable financial outlook and decline in Dollars Exchange.

Liverpool:—Long liquidation. Small market. Little offtake. Stop losses uncovered. Dollar weakness Good progress crop restricting buying here. Opinion ten cents. discounts present situation.

New York:—Hesitating until we receive definite news from Washington regarding reduction in acreage but believe this is a favourable time to buy. Cotton goods markets—yarn markets—firm. little offering.

MESSRS. THOS SMITH & CO.

Despite renewal strength in Wall Street and Silver, cotton eased chiefly on realising due to continued favourable weather. The recent Chinese deal of 9 lacs bales American Cotton is expected to further improve the statistical position. The delay in Government's announcement over acreage reduction is reported to due to Congress approval being awaited for the appropriation of 150 million dollars, but since Government is bent on this reduction we do not doubt that Congress approval will be duluy obtained. With regard to the continued depreciation of the dollar no definite opinion can be offered but it seems some formal agreement may be negotiated including war-debts next week. Our opinion is unchanged and we are in entire agreement with our Liverpool friends who in their report this week sum up the situation by saying:—"There seems no doubt that an advance in the world's commodity price levels is being attempted. Extraordinary powers have been given to the U. S. President and as far as we are aware such powers have not yet been exercised. Markets, however have advanced rather by words than by deeds, but the lever is ready and will be used in case of necessity as the failure of the scheme is quite unthinkable." (Messrs Thos Smith & Co.)

Messrs. Sarupchand Prithiraj have received the following cables from their Foreign Friends under yesterday's date:—

Liverpool:—Market weak on continental liquidation.

Liverpool:—Decline owing to favourable weather reports, unfavourable financial outlook. decline in Exchange Dollars.

New York:—Sterling easiness during the afternoon; market needs fresh stimulus; trade demand somewhat smaller; weather conditions very unfavourable.

New York:—Uncertainty Government plan creating easier tendency; prefer buuying further declines.

Bombay Cotton

Prices Recover

Bombay, June 9.

Considerable nervousness witnessed in the local cotton market appears to have been subsided today to some extent, in to-day's session sellers were few and prices began to move upwaro after the opening on general buying Market expects some announcement by Washington Government reduction in acreage and consequently a rise in values is generally anticipated. Broach July option was quoted at the opening at Rs. 208-12 advanced slowly but steadily to Rs. 210/8 on Commission Houses and general buying.

The rate continued to improve with frequent fluctuations. It is being opined that the Japanese threat of boycotting Indian Cotton will not hold good being detrimental to their own interests, and this had a stimulating effect upon the Bulls. Numerous straddle purchases too, were effected on account of up-country constituents, and much covering also took place. The rate for Broach July/Aug. touched Rs. 212 and finally stood at Rs. 211/8 at 5-30 p.m. the closing rates at that time were as follows:—

Broach July/Aug. Rs. 211-8
Broach Apl/May 1934 Rs. 226-4
Oomra July Rs. 198-4
Oomra Dec/Jan. Rs. 201-8

Tejimandi Broach July Rs. 12-8

Fresh Revelations In 'Anand Mandal' Case

Sensational revelations as a sequel to police investigations were made in what is known as the Anand Mandal case when it came up for hearing before Mr. N. T. Jungalwala, Presidency Magistrate, Dadar, on Friday.

This case is the upshot of the two bomb explosions at the Empire Theatre in one of which a European was injured, and the robberies committed at Dadar and Santa Cruz, the latter involving Rs. 2,900 snatched from Mr. Shaw of the Wireless Station.

The fresh features of the case are two more arrests and the alleged discovery that the culprits used car No. Y 5575 when they beat their retreat after the raid at Santa Cruz.

LATEST ARRESTS.

Pandurang Ramkrishna Khadilker the driver of the car and the owner of the car Purshotam Sarvotam Khisti of Poona, the latest arrests which swell the previous list to 13. These along with some others were said to be absconding. The car was bought from dealers in Bombay.

It appears that on the information of some of the accused previously arrested, the above car was traced by the Bombay Police at Poona, where the driver and the owner of the car were also arrested on Sunday and remanded by the First Class Magistrate of Poona. They were brought down to Bombay on Thursday.

REMAND GRANTED.

HAPPENINGS IN GERMANY

Federation Of Trade Unions Removes Office

The recent General Council Meeting of the International Federation of Trade Unions held at Zurich from 9-11 April decided to transfer the seat of the I.F.T.U. to Paris, because in Berlin the IFTU is no longer able to work unhampered, as is absolutely necessary in the interests of the international working class. The Swiss national centre issued the following appeal on 3rd March:—

"In Germany the Fascist terrorism of the National Socialists is tolerated by the national government, which in defiance of constitutional rights has annulled all individual liberties.

Labour leaders are menaced with programms and there is a danger of the bloody suppression of every movement tending towards freedom. It protests against government methods unworthy of a civilised nation and assures the German workers of its full sympathy and solidarity. It calls upon the International Federation of Trade Unions to appeal to the workers of all lands to proclaim a moral and economic boycott against the terrorism in Germany by the National Socilists. The organised working class of Switzerland will give heed to this appeal."

This appeal of the Swiss national centre and similar protests from others were discussed by the IFTU General Council Meeting at Zurich and it was decided to call upon all who love freedom to fight German Fascism.

ZOROASTRIAN CO-OPERATIVE BANK.

The sixth report of the Managing Committee of the Zoroastrian Co-operative Bank, Ltd., for the period ended 31st March, 1933, shows that the transactions of the past year have resulted in a profit of Rs. 1,610. This figure has been arrived at after providing (1) a sum of Rs. 158 for depreciation on furnituure, (2) a sum of approximately Rs. 2,130 to implement the contingencies reserve account which will also provide a reserve for bad debts, (3) a sum of Rs. 54 being Entrance Fees of new members for credit of the Reserve Fund. Besides this, the Committee have, in accordance with the bye-laws appropriated by way of addition to the Reserve Fund, a sum of Rs. 402 being 25 per cent of the net profits of the past year.

This year, owing to the general depressed condition of trade all over the country and decreased profits of the Bank, the Committee has decided not to recommend the payment of any dividend but to wait for better times to come. The Committee accordingly proposes that the unappropriated profit amounting to Rs. 3,321 in which is included the sum of Rs. 2,113 brought forward from the last year's accounts, be carried forward to the next accounts.

JACKSON CO-OPERATIVE BANK

Reduction Of Interest On Loans Urged

(From A Correspondent.)
DOHAD, June 8.

The Management of the Jackson Co-operative Bank of the B. B. & C. I. Railway have issued a notice to all the shareholders communicating their intention to hold an Extraordinary General meeting on the 17th inst. in Bombay.

Among other subjects on the agenda to be discussed and proposed in the forthcoming meeting, a proposal to reduce the present rate of interest by annas two has also been notified. Consequently in order to consider whether the intended reduction only by annas two is reasonable or any more reduction is necessary, a largely attended meeting of the Railway workers at Dohad was held last night Mr. Nandurbarkar presiding.

In the course of his speech, the President pointed out that after a careful examination of the figures in the recent report published by the Bank, it was concluded that if the rate of interest was still lowered and brought down from 4-1/2 per cent. to 3-1/2 per cent. it would not be unreasonable, and would not at all cause loss to the business of the Bank.

A resolution demanding to fix the rate 3-1/2 per cent. for interest on loans was passed unanimously and a appeal to other shareholders to support the demand was made.

PUBLIC HALL FOR CAWNPORE

(From Our Correspondent.)
CAWNPORE, June 7.

The Cawnpore Municipal Board, as its meeting held this morning resolved to accept the offer of Lala Kamlapat Singhania, President of the Merchants Chamber of the United Provinces, to construct a Public Hall on the land at present occupied by the Municipal Public Works Godown. One fifth of the cost would be defrayed by the Board. Besides the Hall, there will also be the building of the Merchants' Chamber in the same compound. This Hall is expected to be the biggest in Cawnpore and will be available freely for municipal and public meetings. This will remove a long-felt want of this place.

CIVIC ADDRESS.

The Board resolved to present an address to Mr. C. Y Chintamani on his visit to Caawnpore, and a sum of Rs. 100 was sanctioned for the purpose.

A twelve-year-old boy saw two wolves leave their den near his home in Beirra Alta, says a Lisbon message. He crawled into the den, carried their litter of five young ones away, and killed them. He earned a reward of £5 from the Government, but he was thrashed by his father for risking his life.

MODERN TREATMENT OF CANCER

Appeal For Radium Supply At K. E. M. Hospital

An appeal to private philanthropy is made by the Municipal Commissioner for the installation of a Radium Institute in the K. E. M. Hospital in Bombay. In his report to the Municipal Corporation on the subject he writes:

About 500 cases of cancer seek treatment at the King Edward Memoral Hospital every year; but most of them are hopeless or incurable and the friends and relatives of the patients have to take them away to die in agony which may extend over several months. A large amount of this suffering could be avoided if radium treatment were provided at the Hospital. There is no institution in the whole of the Bombay Presidency where an adequate quantity of radium is available for giving relief to such patients. The only institution in India where a sufficient quantity of radium is available for treatment is the Radium Institute at Patna. But for all practical purposes, the Institute is beyond the reach of poor patients from distant parts of the country owing to the prohibitive cost and the hardships of the journey. In order to provide facilities for radium treatment in Bombay, proposals for the installation of radium at the King Edward Memorial Hospital were submitted by the Dean in 1930-31 and thereafter but they had had to be deferred on financial grounds.

RADIUM INSTITUTE NEEDED.

The benefit derived from the treatment depends upon the quantity of radium available. If a radium institute is to be established at the King Edward Memoral Hospital it would therefore be essential to have at least 1 gramme of radium. It would then be possible to extend its therapeutic value by obtaining emanations which could be transported to various places upti a distance of 3-5 days' journey, thereby giving relief and cures to distant sufferers at a reasonable cost. If a radium institute on these lines were to be established, the non-recurring cost would be Rs. 2,65,000 for the radium and the emanation plant, while the cost of the establishment is estimated at Rs. 15,000 per annum approximately. I might mention that the expenditure of the Institute at Patna for the year 1930 amounted to Rs. 29,075.

However desirable the establishment of such an institute might be from the point of view of relieving suffering, I am afraid that in the present state of our finances it would be impossible to provide for it. The scheme is pre-eminently one which calls for private philanthropy; and I can only hope that when the need becomes generally known some generous donor may come forward to supply it.

LEAVES FROM CHEQUE BOOK MISSING

City Clerks Charged With Theft And Forgery; Alleged To Have Filled In Blank Cheques And Cashed Same

Joquim Alphonso and Leo Michael Dias, two Goans were placed before Mr. Oscar H. Brown, Presidency Magistrate, Third Court, Bombay, on Friday on charges of theft, forgery, cheating and using as genuine forged documents involving Rs. 13,200. The accused were remanded into police custody for fourteen days.

Mr. Philip Godinho, Advocate on receiving a letter from the Chartered Bank of India, Australia and China, Bombay, that his current account had been overdrawn to the extent of Rs. 1,689-3-6, examined his cheque book and found that seven blank cheque leaves had been stolen. On visiting the Bank he learnt that during the months of April, May and June, five of these cheques had been filled in and cashed, amounting to Rs. 13,200. He then reported the matter to the police.

The police arrested the two accused. On searching the table of Alphonso a chit bearing the figures Rs. 5,500 and his signature on it was found. Alphonso is also alleged to have taken away on two occasions "bearer" cheques in exchange for "Crossed"-cheques. The writing on some of the cheques it was alleged resembled that of Leo Michael Dias. On examining the Pass-book of Alphonso's account in the Lloyds Bank, Ltd., it was found that a sum of Rs. 5,000 had been deposited on the 29th May, that is four days after a cheque for Rs. 6,000 had been cashed from the Chartered Bank of India, Australia and China bearing the signature of Mr. P. N. Godinho. Another cheque for Rs. 5,500 was also cashed on June 7.

How A Woman May Retain Her Youth

"The woman who wants to look young must taboo massage creams and liquid rouge. She will only harden the structure of her face and destroy the fine texture of the skin," said Mrs. Margaret Holmes Bates, the well-known author.

"Reputable physicians have declared that if she indulges in artificial methods she risks losing her health," she continued. A perfectly natural method of treating a bad complexion is by using ordinary mercolized wax, as this adds nothing to the complexion, but takes from it instead. This wax, obtainable at any chemist's, flakes off the sallow or blotchy outer skin in fine particles, gently, without harming the skin beneath, which gradually makes its appearance. The brilliantly beautiful complexion thus obtained is a new one—quite different from a patched-up old complexion. This is one way to retain youthful looks.

ESCAPING FROM LAWFUL CUSTODY

Muslim Fined Rs. 50

For successfully escaping from the custody of policemen who were escorting him to the Dongri Police Station after his arrest in connection with running a gambling den on Mohemedali Road, one Wajee Azimkhan was sentenced to pay a fine of Rs. 50 or undergo six weeks rigorous imprisonment by Mr. P. L. Thacker Presidency Magistrate, Mazagaon.

According to the prosecution Sub-Inspector Whebali of the Dongri Police Station who was on his rounds on a certain night in January, noticed that gambling was going in a hut on Mahomedali Road. He with some constables tried to raid the hut but the accused who was running the gambling den obstructed the police from getting into the hut where several persons were gambling. The accused caught hold of the hand of the Police Officer, who tried to get in by force and signalled to those inside to get away. Those inside managed to run away but the accused was arrested.

Accused was then taken to the Bhendy Bazaar Lock-up from where he was escorted by a few constables to the Dongri Police Station. When they reached the Umerkhadi Post Office, someone called up the policemen and told them that the "Sahib" wanted them When the constables turned round, the accused managed to escape. The constables chased him but failed to trace him. The accused was however arrested early next morning.

The accused who is also being charged for preventing a police officer from discharging his duties as a public servant, was sentenced as above for the first offence ,viz., escaping from lawful custody.

'ELLOW FEVER SCARE

Dr. D'Souza Sounds Note Of Warning

The agenda of the Bombay Municipal Corporation for June contains several interesting items for discussion at their monthly meeting to be held next week.

Dr. Alban D'Souza has struck a note of warning regarding the spread of Yellow Fever, and, therefore, will move that, in view of the possibility of the invasion of the Port of Bombay by Yellow Fever from Africa, due to facilities for the same being provided by the rapidly progressive air transport system now being established in India, the Medical Relief and Public Health Committee be requested to consider in consultation with the Commissioner, and report as to the necessity for adopting measures to rouse public opinion against and deal with the "tiger mosquito" (stegomyia fosciata)—the carrier of the Yellow Fever.

Mr. A. Soares will move that, with a view to commemorate the civic services of the late Dr. A.G. Viegas, the Commissioner be requested to submit a proposal to the Corporation through the Works Committee to name a suitable street or other public place after Dr. Viegas.

From Mr. L.R Tairsee, dated the 1st June, 1933, who wants a stadium and, therefore will move, that the Commissioner be requested to report on the question of the Bombay Municipality running a sports stadium and to propose a site for the same preferably on Municipal land.

Mr. M.N. Talpade will move on the adulteration of butter, over which is expected a full-dress debate, and which runs, that the Corporation are of opinion that the growing Import and Sale of adulterated Ghee in the City are a great menace to public health and that, therefore, they request the Commissioner to report whether it is not desirable to appoint a special staff of Inspectors for their detection.

That the Corporation on receiving the Commissioner's report in the affirmative, will be prepared to sanction the necessary expenditure for the said staff.

Mr. Mohanlal M. Desai is also going to move a similar resolution, that in view of the increasing number of cases of adulteration in milk, butter and ghee in the City of Bombay, the attention of the Commissioner be invited to take a more vigilant inspection and legal action against dealers of such araction against dealers of such art ticles as per provisions in the Municipal Act, and he be requested to submit a quarterly report of such action when taken.

That in order to give greater facility to the public for the examination of ghee and butter, the Commissioner be requested to reduce the charges from Rupees 5 to Rupee one only in the case of each examination.

Dr. Mrs. Malinibai B. Sukthankar will move that, His Worship the Mayor be requested to invite the attention of Government to the President's letter No. 5293, dated the 17th August, 1927, and to request Government that they will be pleased to undertake at an early date the necessary legislation on the lines of Midwives Act of 1902, (England), so as to provide for the registration of the mid-wives as suggested therein.

PLAYING HOAX ON UNEMPLOYED

Hindu Charged With Cheating

Unemployment in the City has increased to such an extent that many bogus job securers have sprung up and manage to thrive by cheating the poor and unway unemployed and getting money from them on the assurance of getting them employment. Once the money is in their hands they never show their face to their clients, to whom losing even a few rupees that they have in their state of unemployment is a terrible blow. One such job securer named Ganpat B. Panchal who was evading the police was arrested on Thursday and placed before Mr. P. L. Thacker, Presidency Magistrate, Mazagaon, charged with cheating three persons to the extent of Rs. 57.

The police applying for the remand of the accused to their custody stated that the accused told three unemployed Hindus at Tardeo that he was on very good terms with the Manager of the Currency Bank where there were three peons' post to be filled up soon. The unemployed, who were obviously very anxious to get employed anywhere, jumped at the deal and were anxious to run to the Bank immediately but the accused, is alleged to have told them that as he had influence with a Parsi gentlemen in the Bank, he would be able to secure them the jobs but as some money had to be deposited before getting them, he asked his victims for money. All the three together handed Rs. 57 over to their job securer, who promised to meet them the next day.

The three victims anxiously awaited the arrival of their "saviour" the next day. The "saviour" did not turn up either on that or the next few days. The three Hindus getting suspicious that they had been cheated informed the police. The accused who was able to evade arrest for some days was arrested on Thursday.

The Magistrate ordered the accused to be released on a bail of Rs. 75 till June 17.

GERMANY DECLARES GENERAL MORATORIUM

Suspension Of Dawes And Young Loans Will Come Into Force On July 1; Foreign Currency Payments To Cease

BERLIN, June 8.

The Transfer Moratorium comes into force on July 1.

Dr. Schacht announced that the Reichsbank requested Germany's long-term creditors, as well as the Bank of International Settlements, to attend a meeting of standstill creditors in London on June 13.—Reuter.

NEGOTIATIONS IN LONDON

BERLIN, June 8.

The Dawes and Young loans will be suspended under the terms of the transfer moratorium The existing standstill agreements are at present unaffected, but Dr. Schacht at the negotiations in London next week hopes to obtain some alleviation for Germany The Transfer moratorium does not mean the cessation of payments in marks of principal and interest, but ments in foreign currency. merely a cessation of pay- German private doctors must pay into a special conversion fund of the Reichsbank. which promises to convert marks into foreign currencies, whenever the Gedman supply of foreign currencies warrants it. The gold discount bank rediscount credit of 46,000,000 dollars will be paid back now (instead of in July when it is due) in paper dollars, meaning a profit of 50,000 000 marks to Germany at the present rate of the dollar.

WHY MORATORIUM IS DELAYED

BERLIN, June 9.

The reason that the Transfer Moratorium will not operate until July 1, according to political circles is to give an opportunty for the reconsideration of the transfer problem in London next week, when Germany's creditors meet, and the Economic Conference opens.

It is hoped the creditors and the conference will give Germany sufficient concessions so as to eliminate the necessity for the drastic measures laid down in the Moratorium.—Reuter.

NOT IN FORCE YET

BERLIN, June 8.

The Transfer Moratorium has not yet come into force it needs implementing by a decree which is expected to be issued to-morrow.

SAFEGUARDS WORTHLESS

Dr. B. Keith Favours Trust In Ministers

(Special Cable).

LONDON, June 9.

Safeguards for India must either remain unused or they must be destructive of self-Government, is the opinion of Doctor Berriedale Keith in an article in the "Morning Post." The present Governmental policy seems to seek to meet Indian aspirations by the assurances that safeguards are merely formal, and to obviate our anxieties by assurances that the safeguards are real. In reality, the choice should lie between the two policies.

We should trust the Ministers wholeheartedly in the Centre and the Provinces alike, or we should give Ministers full provincial authority under the guidance of the Central Government, responsible to Parliament. It may now be too late to try the latter course, though no proof of it is adduced.

INDIAN TARIFF ON COTTON GOODS

"Financial Times" Says Japanese Threats Will Lead Nowhere

LONDON, June 9.

The Japanese Cotton Spinners' Federation does its country ill-service in protesting against the raising of the Indian Tariff on non-British goods in such extravagant terms. says a leader. 'The Financial Times". The paper adds that the Federation's threats of boycotts as retaliatory action would lead nowhere, and at present they are most misplaced.

The newspaper emphasises that the Government of India had been in no way precipitate and unfair in the exercise of fiscal powers to safeguard indigenous industries from the effects of depreciated currencies.

Why the duty was not increased three months ago when it was patently inadequate, instead of being merely renewed, has never been satisfactorily explained.

The paper concludes with the remarks that instead of indulging in ineffective threats, the Japanese industrialists would be better employed in co-operating with their Government in the stabilisation of Yen, without which no tariff negotiations can hope to succeed.—Reuter.

THE BOMBAY CHRONICLE

SATURDAY, JUNE 10, 1933

INDIA IN PAWN

Sir George Schuster is leaving Bombay for London on Monday to participate in a number of momentous discussions, which will have an important bearing on the future constitution and the immediate economic condition of this country. He is to take part in the discussions on the Statutory Railway Board, the Reserve Bank and the World Economic Conference. All these three conferences are very weighty and Indians will take part in them only in a subordinate capacity, and will not have a voice in their final decisions.

Granting that Sir George Schuster will sincerely fight for Indian interests, we cannot but say that he is no substitute for an Indian. His handling of Indian finances, particularly his attitude in regard to the large exports of gold from this country, has not created any confidence in him, though in official circles in Simla he may be considered as an ideal man to represent Indian interests. We fail to understand why, when there are so many able Indians capable of competently handling the questions in issue, a European official should be chosen.

AN OPEN CONSPIRACY

The Government are well aware that there are fundamental differences between them and public opinion in this country on the question of the Reserve Bank and the Statutory Railway Board. Indians rightly think that there is an open and scandalous conspiracy going on in England to deprive them of their legitimate control over their own finances, not only through so many reservations, but indirectly by making over the whole railway system, in which hundreds of crores of Indian money have been sunk, to a body of aliens for them to dominate and make use of as they like, even against national interests. That body, according to the White Paper, is to be independent of the legislature and dependent on the will of the Secretary of State and his Lombard Street financial advisers.

The same thing is true also of the Reserve Bank, which is to be responsible for India's finances and, what is more, for the exchange policy, which is so very vitally connected with the trade and commercial prosperity of this country. Army, Railways, Reserve Bank, Foreign Relations, and in fact everything that really matters, have to be completely surrendered to the safe keeping of foreign financial and other experts, before the mockery of a constitution is made over to Indians! It is against this hoax that the whole country is protesting with one voice.

IS IT POSSIBLE ?

And yet the Government of India are sending Sir George Schuster to fight for and to safeguard, India's interests. Is it humanly possible for Sir George Schuster to do so honestly? Apart from this, at the second annual session of the Federation of Indian Chambers of Commerce, Mr. D. P. Khaitan told Sir George Rainy that the opinions expressed by the three European representatives sent to the World Economic Conference in 1927 under the League of Nations, "were found to be very difficult for us to ratify. . . . . In fact it has been held by eminent economists that the opinion expressed by them at the Conference is really opposed to the best interests of India."

The Federation then passed a resolution that, on such occasions in future Indian delegations should consist of "Indians only." Sir George Rainy, who was present at the meeting said, "while I do not think it would be right at this stage to give any pledge, I shall regard the opinion expressed by the Federation as weighty, and it will be duly taken into consideration." And the Government have kept this promise by deputing the Finance Minister.

HELD IN PAWN

Lord Salisbury was right in advising his fellow-countrymen that they ought not to bother about "pledges" as they were not intended to be kept. Is it any wonder that foreign delegates ask Indians whether Indian interests cannot be represented adequately by Indians only at such world conferences, instead of by foreign officials whose only interest in India is to safeguard England's investments in this country. We cannot but come to that conclusion in view of the bitter controversy now being waged in England over the financial interests of England and the danger of leaving them in Indian hands. But since India is held in pawn, according to Churchill and friends, nothing matters.

Put Unity First

With reference to the representation made to the Premier by a number of non-Congress leaders, Sir Tej Bahadur has reiterated his conviction, shared by all thinking Indians, that the continued refusal of Government to make a response to the widespread demand for the release of political prisoners is bound to produce disastrous results. He has expressed that view often before but it has gone unheeded by Government. He has, however, done nothing to bring home to them the enormity of their blunder. On the contrary, he has been all along pressing co-operation on them while they have been non-co-operating with Congressmen in a most drastic manner.

PREFERS TO BE SECOND FIDDLE

If he and a few others of his school of thought had told Government plainly that they would be no party to any negotiations so long as the most honoured among their co-workers were being clapped into prison, they could have compelled Government to be a little more reasonable. But that did not suit Sir Tej Bahadur, who prefers playing second fiddle to the Joint Committee to standing up for the rights of his country.

"I am unable to say," he naively remarks in his letter to the "Manchester Guardian," "whether Congressmen would like to participate if invited at this stage of the work in framing the new constitution, but personally I would be glad if they could see their way to bear their burden of work." Notice the sting in the last four words which insinuate that Congressmen are shirking their part of the burden. Sir Tej Bahadur Sapru need have no illusions in this matter. Till all the Civil Disobedience prisoners are released unconditionally there is no earthly chance of Congressmen being able to relieve Sir Tej Bahadur of his reavy burden. It is, however, obvious that, if Government release Congress prisoners and end the Ordinance regime, the "status quo ante bellum" would be restored; and Gandhiji has already offered to renew his efforts for a settlement on the same basis as that on which he joined the second R. T. Conference. So far as the Congress participation in the constitutional enquiry is concerned, the next move must come from Government.

THE FOREMOST QUESTION

It is a serious matter indeed that Government have not shown any disposition to avail themselves of the offer made by Gandhiji, though the period of the suspension of Civil Disobedience will end in a fortnight. However, some aspects of the present situation need to be considered more on their own merits than in relation to Government's policy. The foremost question before the Congress is whether Civil Disobedience should be further suspended. With regard to this question we have suggested more than once, even before the present suspension, that the movement should in any case be abandoned regardless of whatever attitude the Government may adopt, and a new policy initiated. The suggestion clearly implies that a communal settlement should be the first concern of all nationalist leaders, as without such a settlement no campaign can secure such a wide support as to persuade Government to accept the country's demands.

DUTY OF LEADERS

We would, therefore urge the leaders' conference that, we understand, will be shortly convened at Poona or Bombay to consider our suggestion seriously, to suspend Civil Disobedience indefinitely and to concentrate on that vital question, the solution of which is itself a guarantee of the success of any political programme that may later be devised by an All-Parties Conference.

"White Paper Zoo"

Judged from the standpoint of self-government the White Paper being more watery than milky, it must in frankness be said that Mr. Churchill's comparison of Sir Samuel Hoare with the cow is an injustice to that highly useful animal. Perhaps Sir Samuel Hoare's retaliatory description of Mr. Churchill is a reflection on the chameleon! Anyhow it is interesting to find that the two warring politicians have drawn their inspiration from the zoo for purposes of their slashing exchanges. If one more observation is permissible, it may be added that the "Daily Express" caption 'The White Paper Zoo' is not by any means inapposite.—"Leader."

Apologise

The American eye-witness's statement proves that it is the Bengal Government which, all along, has been giving a wrong account of things and suppressed the facts; and it is its informants who have traduced the honour of pandit M. M. Malaviya. Sir Samuel Hoare and Lord Willingdon owe an apology to Panditji for the way they treated him. Of course, no one expects the Bengal Government to offer the 'amende honourable.'—"Sind Observer."

Befriend Congress

We believe that it is more in the hands of the Government than of the people to create a situation that may hush strife on all sides. The people are discontented because in their own land their position is no better than that of hewers of wood and drawers of water. It is the British Government and the British Parliament, that can improve their position and thus remove the prevailing discontent. It may be said that the Government has been trying to remove the discontent. If so, then that can never be done by ignoring the most powerful and the biggest political organisation in the land. The solution of the present tangle will be easy as soon as the authorities understand this much.—"Mussalman."

"Slaying The Slain"

To expose the falsity of Government's *communique* on the recent indictment by Pandit Malaviya, would be like slaying the slain, but the testimony of Mr. Frank Bancroft Jr., an American onlooker, deserves to be stressed if only to point out to the Government, the silly impression created by their propaganda as an answer to the allegations they clumsily dodge..... The Government are rightly jealous that they should not be brought into hatred or contempt, but are they aware that occurrences of the kind that happened at Calcutta are liable to rouse adverse sentiments, while the apologia they issue, is apt to evoke pity which is not very far from contempt;—"Hindustan Times."

Try Indian Governors

Nothing more of interest to India is known of Baron Brabourne, the newly appointed Governor of Bombay, except that he is 38 years old and was Private Secretary to Sir Samuel Hoare whose political principles and policy with reference to India he might be presumed to possess to the fullest extent.....

But one cannot help expressing fears at appointments of raw hands to the highly responsible places of Governorship of provinces which are soon to have autonomy of the White Paper band. For under the new constitution, the Governor is to be invested with such extra-ordinary powers as will make him virtually a dictator.

.....

With her own problems to solve it is doubtful whether Britain can spare persons of requisite vision and sympathy to hold this responsible place in India. Why not try Indians of approved merit in a few provinces?—"Hitawada."

Fundamental Fact

India demands self-government, full, free and unfettered self-government. It is determined to have it whatever the price it may be required to pay. It will have it to-morrow or the day after, if not to-day. The diversions created by a mock fight or even a real fight between two sections of the Conservative party in England cannot do away with this fundamental fact. It is possible that the apparent fury of the fight may engross attention to the extent of some persons forgetting their mission for the time being and making them silent spectators of an encounter between two elephants, but that does not alter the fact that as soon as the fight is over and the battle lost and won or compromised between the two combatants, the real problem will emerge once again and demand a solution.

LURE OF SATTA KHEL

Half Bombay's Population Have Become Gamblers

(By "OBSERVER.")

To the casual observer it may seem a coincidence that both the "Bombay Chronicle" and one of of its contemporaries on the same day should sound a note of warning on the alarming proportions that "Satta Gambling" has assumed in the city of Bombay. To one, however, who has lived many years in this city, and watches the growth of this craze there is nothing surprising in it. It would not be an exaggeration to declare that "Gambling has ruined Bombay." If the public and the authorities realize this fact right now and make an effort to remedy this, there may yet be a chance to save the city from complete degradation.

I do not profess to be an expert in economics, but it must be apparent to any intelligent person, who has given a little thought to the subject that the evil has its roots in the paralysis of the cotton industry. Bombay's prosperity depended on the mills, but alas it has fallen on evil days. Unemployment has increased and people have resorted to Satta to tide over t difficulties.

Unlike Calcutta which can boast of several flourishing industries such as rice, jute, coal, shellac and tea, Bombay has besides cotton nothing else worth talking about.

50 PER CENT. GAMBLERS.

I do maintain that Bombay's decline is due to the fact that at least 50 per cent. of its population are inveterate gamblers, and depend on it for their existence. As truth always offends, there will most likely be a strong protest against this statement. It is nevertheless true and those who have the welfare of the city at heart should realize how precarious is the situation.

There have been some people here, who have occassionally raised an outcry against racing on account of the alleged gambling it encourages. Well, gambling at the races in Bombay pales into insignificance before Satta and other forms of gambling indulged in daily in the city.

With regard to Satta gambling on American Futures with which we are at present concerned, one fails to understand why the authorities have tolerated it so long. The most stringent measures should have been taken to stamp it out years ago before the evil had become a cankerous growth.

CONDUCTED OPENLY.

Satta is conducted almost openly under the very noses of the police, who surely must be aware of the reason why hundreds of chokras rush about the streets making the night hideous with their raucous shouts, selling their bulletins. Some years ago none of these pests would have been permitted to hawk in the streets after 10 p.m., but in these days they can do so with impunity till 2 a.m.

Few streets are immune from their presence, and in some localities, where hundreds of Satta gamblers congregate every night, the noise they create has driven away many residents from the nighbourhood.

Many cranks who are opposed to racing have not raised a finger

Frankly Speaking

DISARMAMENT TO FAIL?

It appers as if the Disarmament Conferences is going to fail, as France is still insistent on security. Mr. Norman Davis is now taking a hand in the discussion, as he is anxious to have a favourable atmosphere for the Economic Conference.

According to observers it will not be an easy matter to overcome French reluctance to sacrifice heavy "artillery and tanks for control."

Britain is equally insistent on air bombing for police purposes,—an attitude much worse than that of France. One may excuse many things in open warfare, but bombing for police purposes ought, at least, to be prohibited.

Japan, who specialised in her war with China in air-bombing with immense benefit to herself, is now opposed to the British attitude.

These opposing forces are not likely to bring success to the Disarmament Conference, unless the Nations gathered there show more honesty of purpose.

U. S. AND DEBTS.

The United States delegates to the Economic Conference, who have now arrived in England, refused to touch matters relating to Disarmament and War Debts.

Every one admits that War Debts and prosperity are interrelated, and they, in turn, depend on the final decision of the Nations on Disarmaments. The United States will not forego the large sums due to them, if the European Nations go on spending huge amounts on arming themselves for future eventualities.

Once the question of Disarmament is settled satisfactorily, it should make the way clear for a closer and better understanding between the different countries.

We doubt, whether this will happen, as none of the Powers seems willing to forego the advantage it possesses in arms.

JAPAN'S THREAT.

The raising of the duties on non-British cotton piecegoods by 25 per cen. has not only created a stir in Japan, but great resentment apparently,—for very good reasons, perhaps.

The "Financial Times" thinks that the threats of the Japanese Cotton Spinners' Federation will lead nowhere, and that, at present, they are misplaced. Nobody can say that the Government of India have been precipitate in their action, but the Japanese will not take things lying down.

Already they have declared a boycott against Indian cotton, though we doubt, whether it will be very effective, since Japan will have to buy Indian cotton, if she wants to compete in the Indian market.

The immediate result of the boycott has been a sudden fall in the prices of Indian cotton. Indian mills can do much to give an impetus to Swadeshi cotton by refusing to use foreign varieties and depending solely on India for their requirements.

Though such a step may not benefit the cotton-grower to the same extent as when Japan was buying Indian cotton, it may alleviate their position. Lancashire too must come to the help of India.

MISCHIEVOUS LEAD.

It is deplorable that, while attempts are being made by Pandit Malaviya, Maulana Shaukat Ali and several other responsible leaders to resume negotiations for a communal settlement, Dr. Moonje is giving a thoroughly wrong and mischievous lead by stating that, since the Communal Award has been given, it is no use trying to re-open this question by unity conferences.

There is no sense in Dr. Moonje's contention. The Award is no more sacrosanct than the White Paper.

It can be altered as a result of agreement among the communities concerned, as it was by the Poona Pact, or under pressure otherwise.

One would like to know, why Dr. Moonje, whose blood boiled at Sir Chimanlal Setalvad's suggestion to the Premier to arbitrate on the communal question, now regards the Premier's Award as the last word on the subject.

A SHOCKING SENTENCE!

It is reported that Miss Gaidilieu Kabai Naga, popularly known as the "uncrowned queen" of the hill tribes in the North Eastern Frontier, has recently been transferred to Gauhati Jail, where she will have to serve a sentence of 20 years' transportation, passed by Mr. J.C. Higgins, Political Agent of Manipur.

It is a shocking sentence to have been inflicted upon a girl, who is said to be barely twenty-one years old. It is stated that, she was preaching Gandhiji's message among the hill tribes, and that, some of them threatened a breach of peace, but particulars of the charge and the evidence brought against her are not fully available.

Questions in the Assembly and the Assam Council elicited only vague and evasive replies. As such replies have given rise to some wild rumours about this lady, it is desirable, or rather essential, that Government should issue a communique stating the precise facts.

LINGAYATS AND UNIFICATION

To The Editor of "The Chronicle."

Sir,—I have followed with considerable interest the letter of Mr. A. S. Kambli and the article "Lingayat Youth and unification" by "Vishvamitra."

Vishvamitra wants to know when and how Lingayats have carried on extensive propoganda for Unification. It is true that influential Lingayats like Rao Bahadur B. L. Patil, M. L. A., and Sjt. M. S. Jengin, Secretary, Karnatak Chamber of Commerce, have devoted much of their valuable time for the cause of unification. But one can say that the Lingayat members of the Council and other public bodies, the Lingayat intelligentia and youth, have done nothing towards the cause which is so dear and valuable to the whole of Karnatak and the Lingayat community in particular.

The Karnatic Unification Sabha which has up to now worked for the cause mainly consists of non-Lingayats. It was the non-Lingayat volunteers of the Karnatak Seva-dal, who collected about forty thousand signatures on the unification forms.

Three years back Diwan Bahadur S. T. Kambli declared in the Bombay Legislative Council that he was even ready to carry on Satyagraha if Government remained deaf towards the cry for unification. A few months later some prominent people sent an appeal to him to start the campaign of Satyagraha immediately and that they were ready to follow his lead. Diwan Bahadur Kambli did not even reply.

Mr. P. R. Chikodi, M. L. C., once in his discussions with the Secretary of the Karnatak Chamber of Commerce said that Satyagraha was the only course left for attaining unification. People are eagerly waiting to know when he would start the campaign. The Lingayat members of the various Local Boards and Municipalities have done nothing for the cause bevond passing a bare resolution.

It is hoped that the Lingayat youths will vigorously carry on propaganda for this sacred cause and prove faithful to the resolution passed in the Lingayat Youth Conference at Dharwar.—Yours etc.,

URDU TEXT-BOOKS

To The Editor of "The Chronicle."

Sir,—The question of a suitable Urdu course for study in Municipal Schools in Bombay has evoked a heated controversy in the past. And although the decision of the Director of Public Instruction that the Abdullah Khan Series should continue for another year, has for the time being laid the controversy at rest, yet the Urdu press of Bombay is active as before and is continuously publishing articles on the subject.

Influenced by this agitation the Municipal Schools Committee has recently passed a resolution appointing a committee of 14 persons to judge the merits of the various sets of books at present before the public eye and decide impartially which series will do for Bombay Schools.

Now out of these 14 persons, five will be the Muslim members of the Schools Committee, while the remaining have been taken from the public and the various educational institutions. This list requires to be changed, first, because some of the members have already expressed themselves either in favour of or against a particular set of books, and, secondly, because some of the members are not educationists or scholars of Urdu. This is very important, for the question which the committee of 14 is called upon to solve is: which Urdu series is the best for Bombay Schools. In my opinion the question regarding the adoption of a suitable Urdu course of studies should be entirely left to the educationists and the linguists independent of the members of the Schools Committee. I trust the latter will not fail to make this much sacrifice.

I commend this suggestion to the notice of the Chairman of the Schools Committee and trust that the consideration will be paid to it.—Yours, etc.

UNDER WHAT LAW?

To The Editor of "The Chronicle."

Sir,—Through the columns of your esteemed journal I would draw the attention of the U. P. Government to how Khaddar clad people are roughly handled by the guardians of law and order at Kulpahar station district Hamirpur.

I got down at Kulpahar station on the 25th of May 1933 by 652 down passenger train. As I was Khaddar clad, I was asked by a police constable in plain dress at the platform to give a search of my luggage and person. I asked him the reason. He rudely replied, "You cannot proceed further without giving a search and if objected I will drag you to the police station as I have clear instructions to search all Khaddar-clad people." I did not think it proper to resist him and hence I had to submit. I gave a search of my person and luggage in the presence of the Station Master and others but nothing incriminating was found with me.

May I know under what section of the Indian Penal Code or of the U. P. Special Powers Act this wholesale search of Khaddar clad people only is taken. I would have not taken any serious objection of this indiscriminate search, had it not clearly signified that Khaddar wearing is a crime by itself.

To the best of my knowledge a constable is not entitled to take a search.

I presume the higher authorities are unaware of this high-handedness of their police subordinates.

Will the Government make an enquiry into it and remove this grievance?—Yours, etc.,

NOT A PRACTICAL JOKE ?

To The Editor of "The Chronicle."

Sir,—I beg to draw your attention to the report appearing in your issue of the 2nd instant, under the caption "Practical Joke Ends in Fatality". Any reader of your respected journal may come to the conclusion on reading it, that the friend who stated he (Nusserwanji Ardeshir Batha) had failed in the Matriculation Examination was serving his deceased friend very badly by giving this false report. I may assure you that your reporter was misinformed and it was no case any of playing the slightest practical joke, on the part of the deceased by his said friends.

My information goes to prove that these friends had simply gone to his place and informed him of the result, as they actually found it at about 11 a.m. at the University Hall. It could be easily seen that the deceased's name only appeared as one of the successful candidates in a supplemental list issued later on by the University. The Coroner's verdict on this unfortunate incident does not even mention anything about this "Practical Joke."

I therefore request you to make room for these few lines, to give justice, and to lessen the burden of grief that has fallen to the lot of the deceased's friends.—Yours, etc.,

ARDESHIR EDALJI BENGALI.

GOA "LOTTERIES"

We have recently received a number of letters, a great many of which are anonymous and others under pseudonyms, making allegations about the bonafides of Goa 'Lotteries."

Our inquiries show that the Hospicio and Misericordia drawings, which are conducted with the approval of the Government of Goa are free from any suspicion of fraud or unfair dealing and that these allegations have apparently been instigated by some disgruntled individuals who have not been able to gain their own objects.

Exposure of any fraud or malpractice is in the interest of the public, but when attempts are made to vilify the working of an institution solely on account of some personal grievance, it is not the business of the Press to encourage them.

These institutions at Goa are maintaining a number of Hospitals, Alms Houses and several Orphanages and their maintenance is dependent on the drawings, which are conducted under the direct supervision of the Goa Government. Several important officials are present at the drawings which are open to the public.

We hold no brief for lotteries of any kind, which in British India are illegal unless sanctioned by Government, but as we have been recently inundated with letters, which, apart from making unfounded allegations, have not in a single case made any reference to the Hospitals, Alms Houses and Orphanages that are maintained by these two institutions, we wish to make it plain to the writers that ill-founded complaints will not find publicity in our columns.

INDIAN ROUND-THE-WORLD FLIGHT

THE APPEAL

Following is the text of an appeal issued over the signatures of Seth Ghanshyamdas Birla, Dr. B. S. Moonje and Lala Narain Dutt:—

Civil aviation is advancing with rapid strides in the Western countries. Nations of Europe, such as England France, Germany, Italy and even Japan are vying with each other in offering inducements to the youths of their respective countries to take to aviation in all its various departments, so that in times of emergency the nation may not lack inadequate supply of well-trained youth for the defence of their motherland.

WHY NOT INDIA?

India also is aspiring and struggling for Self-Government which in all climes and under all circumstances, connotes capacity for self-defence against foreign aggression and internal comotion. Indian youths also have caught this fire of enthusiasms for aviation that has come from the West. Some more favourably situated have tried often with success to compete with the Western youths and many more there are in our personal knowledge who aspire to create prestige for India in this line, as youths in European countries are being encouraged to do.

THE HANDICAP.

The essential handicap, however, to the Indian youths in this matter is that neither the Government nor the people are so mindful as the essentially national Governments and people of the European Nations are of their obligations to the youths of their countries. The handicap is there. We know it but we will not progress if we sit with folded hands despondent and cursing [illegible]. It is time for the Princes and the well-to-do people to come forward and offer every encouragement to the youths of India.

CHAWLA'S ENTERPRISE.

A daring attempt, the first of its kind in India, of an Indian Flight-round-the-world is being organised by Mr. Chawla. Mr. Chawla, it ought to be known to all with pride, is the first Indian who successfully flew from Karachi to England, and was awarded a prize by the Government of India. He is an able and enterprising young man full of promise and deserve financial help, in his daring attempt which is unique, so far as India concerned. The estimated cost of the enterprise is about rupees 35,000. He has received promises of help in the shape of supply of petrol and oil from the Secony Vacuum Oil Corporation. He will have to purchase a machine of his own which will be insured & good reliable machine will cost about Rs. 15,000/.

APPEAL TO WELL-TO-DO PEOPLE.

We are issuing this appeal in the hope that the Princes and the well-to-do people of India, appreciating the courage and enterprise of Mr. Chawla will contribute liberally towards making this enterprise of an Indian Flight-Round-the-World a success.

A fund has been opened with the Imperial Bank of India, New Delhi. We propose to call it "An Indian Round-the-World Flight Fund." Donations may be sent for the Fund direct to the Imperial Bank of India New Delhi, in the name of Dr. B. S. Moonje, Secretary to the Indian Round World Flight Fund. Promises or receipt of donations will be announced from time to time in the Press.

in protest against t[illegible]atta craze.

THE CATCH

For example, if a per[illegible] backs 4 annas on 1 and 2 and the latter turns up, the gambler makes a profit of Rs. 1-12 on the transaction. The catch is the small stake invested and the profitable odds of 9 to 1 returned. This undoubtedly makes an enormous appeal to all and sundry, and accounts for the fact that the sahib and scavenger fall for this democratic form of gambling.

The most pitiful side to this sordid craze is the mania for consulting tipsters, who range from lunatics, fakirs, half wits (both sexes) and loafers of the worst description. Some oblige for a cup of tea, while others charge fees like professional men.

The better class of Satta "fans" consult astrologers and tipsters who claim to be experts in 'hoary sciences.'

The big betting is accepted by bookmakers, who usually rent big rooms with passages off the roadway. The biggest centres are in the Marwari Bazar locality, Cowasji Patel Street, and Parsi statue.

CHECK THE EVIL

Since the craze took hold of the Bombay public, certain thoroughfares in the city have become impassable. Crowds of gamblers, who are too impatient to wait for the results till the papers appear are out in the streets till 2 a.m. hanging about near public telephone boxes where cable messages are received from offices in the Fort and Kalbadevi. Their presence at this hour of the night disturbs the peace of respectable citizens.

In this article I have stated the bare facts, and it is clear that some measures are really necessary to check the evil.

NOT RIVAL MACHINERY

Simon Assures Pact Does Not Infringe League Covenant

RUGBY, June J.

The despatch from the Foreign Secretary, Sir John Simon to the British Ambassador at Rome, commenting on the aim and purpose of the Four Power "Agreement of understanding and co-operation" is included in the White Paper containing the text of the document issued last night.

The despatch states that "throughout the negotiations, we have made it clear that the proposed agreement should in no sense be regarded as a substitute for or as set in opposition to the Covenant of the League. It is not a piece of a rival or competing machinery, but is framed for the purpose of operating within the ambition of the Covenant and in fulfilment of its object.

The proposed agreement is intended to aid in the maintenance of the principles for which the League stands. The methods and proceedings which may fall to be studied or adopted under the agreement are strictly in accordance with the spirit of the Covenant."

EQUAL RIGHTS OF STATES.

Sir John Simon also emphasises that the proposed agreement was never intended to involve any attempt on the part of the Four Powers—if not to impose their will on other states at least—to establish themselves as a kind of directory in Europe. Such conceptions would be entirely foreign to the principles of the Covenant which recognises the equal right of all the states, just as in appropriate cases it requires their unanimity.

"I have been at pains to explain the attitude of His Majesty's Government in this matter to the representatives of other powers, and particularly to those of Belgium and Poland and the Little Entente. By the form which the proposed agreement has finally assumed, I am confident that any such erroneous impression would be completely eradicated

REFER TO PREAMBLE.

In this connection, I may refer in particular to the last paragraph of the preamble to the agreement which specifically states that the Four Powers are mindful of the rights of every State which cannot be affected without the consent of the interested party. There can therefore be no possible doubt that the object of the agreement is to ensure that over many years to come France, Germany, Italy and ourselves may agree in Europe upon the same policy of peace—That is the object which must be generally approved, and it is entirely consistent with the aim due and spirit of the League Covenand and with one respect for the rights of other Powers."

Referring to Article 2 of the Agreement which makes a special mention of Article 16 and 19 of the League Covenant Sir John Simon points out that the Agreement, while contemplating the quadri-lateral examination in respect of the methods of procedure is expressly stated to be "without prejudice to the decisions which can only be taken by the regular organs of the League of Nations.—B. THREE POWER TALKS FAIL

France Fails To Agree With Britain

LONDON, June 9.

The Three Power conversations here have not resulted in any definite decisions even on principle. According to a semi-official statement issued last evening which declares that France has given up the idea of obtaining any fresh guarantees of mutual assistance from other Powers, but she adheres to her ideas with regard to the control of armaments, and also asks for the publication of military budgets.

It is believed here that the idea of control is making headway with the Americans, but Britain is still opposed to it.—Reuter.

Dawoodi Bohras And Wakf A[illegible]

An Appeal To Government To Do Justice To Community

(From A Correspondent)

In my last article, I have pointed out how cordial were the relations of the Dawoodi Bohra Community and their religious Head with the British Government. I have also given instances of the various forms of help given from time to time by His Holiness to the Government and other sister communities, besides his own.

The only object in doing so is that the Government, on being appraised of these important facts, may be induced to remove the injustice they have done to this small community by foisting upon them the Wakf Act which interferes with their religious tenets.

When a community does not want the application of the Act, and when the Act itself provides for exemption of any community that does not desire its protection, it is the height of injustice for the Government to force the Act upon a peaceful and commercial community like the Dawoodi Bohras at the instigation of a few seceders and excommunicated members who have been carrying on their propaganda since 1917.

In 1925 when the Government intended to apply the Act to Bombay Presidency, these opponents of the community carried on a futile agitation to have the Act applied to the community. But at that time fortunately a Hindu Minister of the Cabinet of the Bombay Government got the community exempted after conducting an independent investigation.

But when a Muslim Minister came to occupy the same office, the situation was changed. This Minister who was for a long time past in close association with the opposite party, misled the Government into applying the Act to the community, without having the slightest regard for their religious feelings.

PLEASANT REMINISCENCES

At this time, it would not be out of place to remind the Governments of the very pleasant relations that existed between them and the predecessors of His Holiness, the Head Mullaji Saheb.

I have already given the instance of the splendid services rendered by the Mullaji Saheb to the Government about a hundred years ago. Another instance is that of His Holiness Syedna Tyeb Zainuddin Saheb in the time of Sir John Malcolm. In view of certain services of His Holiness, Sir John Malcolm paid a visit to His Holiness and earnestly asked him if he had any object to ask of the British Government. His profound piety made the High Priest hesitate to have his name entered on the list of Jagirdars or feudatories to the Government. The only thing he cared to ask was that the Government should continue the kind attention that they had always been pleased to show to him and his people.

In the Hijri year 1240, the Government of Bombay conferred a rare distinction upon His Holiness Syedna Tyeb Zainuddin Saheb by electing him to a seat on the Legislative Council, which was considered a very high honour in those days.

In the Hijri year 1256 when Syedna Abdul Kadar Najmuddin Saheb was on the seat, the Government of Sir Bartle Frere honoured His Holiness by creating him a First Class Sardar of the Deccan and exempting him from the Arms Act and from the legal obligation of attendance in a civil court.

From all this it will be clear that all the incumbents of the office of His Holiness have been rendering loyal and valuable services to the British Crown. In view of this the injustice done to the community by the present government by interfering with their religious traditions cannot be justified in any way.

In applying the Act to the Dawoodi Bohra community, the Government have sought the support of the report of the Committee appointed to enquire into the Wakfs of the city. How one-sided and unjust is the report has already been pointed out in the Bombay Legislative Council as [illegible]s outside. In applying the Act to the Dawoodi Bohra community, the Government have sought the support of the report of the Committee appointed to enquire into the Wakfs of the city. How one-sided and unjust is the report has already been pointed out in the Bombay Legislative Council as outside. When the report was submitted for approval Council on 14th October, Mr. T. K. Mody, Bar-at-Law, opposing it, had some comments to offer. He said that he was treated by a majority of his followers as the vice-regent of God on earth, it was not desirable to frame a scheme with regard to the Galla fund, and the High Court dismissed the case of the plaintiff and refused to interfere in the matter. What does it show? The highest court of justice in this Presidency refused to interfere with the internal affairs of the community and although technically it held that the Mullaji Saheb was accountable, yet under the circumstances of the case they would not have any scheme framed which under ordinary circumstances they would have framed. Therefore it is very unfortunate that the Government should have taken upon itself to withdraw the exemption which the Bohras were enjoying. They withdrew the exemption after the receipt of this report, and I believe that the withdrawal was based on the recommendations of this report. If I am wrong I may be corrected, Sir, but that is how things happened in sequence of time. The point that I would now like to impress upon the members of this House, is that the Mullaji Saheb enjoys a unique position in his community, that the majority, I should say more than 90 per cent, of his followers believe in the divine right that he claims. It is not fair nor is it the business of other castes and sections of residents of this Presidency, to enforce their own views of what is right or wrong on the members of that community and compel them to make the Mullaji Saheb accountable when their religious belief says that he should be held unaccountable."

The Hon. the President of the Council also declared his opinion on the report:—

PRESIDENT'S OPINION.

The Honourable the President: There is the one thing I should like to point out. I think the discussion is going along wrong lines. Probably the scope of the resolution is not distinctly understood. I should like to be corrected if I am wrong. I find that No. 3 of the terms of reference is simply this:

"To report whether in the opinions of the committee, section 13 of the Mussalman Wakf Act, enabling Local Government to exempt Wakfs from the operation of the Act should be retained or removed."

Now, in the reply of the committee to the terms of reference No. 3, which has been read out by the honourable member Mr. Pestanshah Vakil, there is no reply to that reference at all. The reply given by the committee is beside the point. The reply given is:

"After full and dispassionate consideration of the evidence recorded, in connection with the clear findings of the learned judge as embodied in the above quoted paragraphs, the committee has come to the conclusion that if any Mussalman community really needs the protection and aid of the Mussalman Wakf Act, it is the Dawoodi Bohra community."

There is no reference to the committee on this point, and the question referred to them has not been answered. This seems to be a storm in a tea-cup.

From this it is proved that in making its recommendations for applying the Act to the community, the committee has gone beyond its powers of enquiry [illegible] defined in the terms of referen[illegible] From the President's ruling, [illegible] portion of the report which [illegible] outside the terms of ref[illegible] should be considered unc[illegible] tional and 'ultra vires' [illegible] committee.

Under these circum[illegible] is the sacred duty o[illegible] ernment to do justi[illegible] community by resto[illegible] exemption from th[illegible] formerly enjoyed.

WHO KILLED COLONEL ABBOTT?

Deceased's Bearer Reveals Accused's Confession To Him

QUETTA, June 9.

At the resumed hearing of the Abbott Murder case, the evidence of Ramzan was recorded to-day in the Court of the Additional Sessions Judge.

Ramzan stated that he had served as a bearer to Col. Abbott for one month, and had left the service on March 15. Witness and the accused used to live in the same room in the servants quarters. On March 21 he (Ramzan), was arrested by the Police. While he was detained in the Cantonment Thana, he saw the accused on the verandah. The accused looked much perturbed and worried. On enquiry the accused told witness that he was afraid, because his (accused's) finger impression had been taken by an expert, who had come from Phillaur. Witness, thereupon, told the accused that the expert had taken the finger impression, which was left on the switch in the bed room.

BOTH FOUND DEAD.

In reply to other questions, witness stated that the accused had told witness that he had gone to the bedroom before the bearer that morning, and had found the Sahib lying dead on the bed, and the Memsahib lying dead on the floor near the bed. Light was then on in the room, but the accused himself had switched it off.

Col. Abbott was a very short-tempered person, and he used to abuse his servants, both in English and in Urdu. A pair of tongs exhibited in the Court were recognised by the witness as being similar to those used in the bedroom for the fireplace. Out of the four shirts produced in the Court, witness identified three shirts as belonging to the accused.

TWICE ABUSED BY DECEASED.

Cross-examined by the Defence Counsel, witness stated that, in his presence, the Col. Saheb had never abused the accused, though he himself had been twice abused. Witness had, therefore, reported to the Memsaheb about the incidents and told her that because the Saheb used to abuse him, she should arrange for another bearer as he was going to give up his job.

Four more prosecution witnesses had been examined when the Court rose for lunch.—A.P.

THE MODEN DUEL

Mr. Charles Lincoln Leven, former British war flyer and film actor and his bride, Miss Hilde Zimmermann, a German girl. (Mr. Leven and Miss Zimmermann were dancing in the Garlsbad cafe, when a note was received by the lady from the son of a former Austrian Minister, who was also dancing there, to meet him. Mr. Leven naturally resented this and knocked the Count down. Mr. Leven challenged the Count to a duel with machine guns in aeroplanes. An action for assault followed, but Mr. Leven was acquitted.)

ICE AXE FOUND ON MOUNT EVEREST

Mr. Odell Combats Benson's Theory

(Special Cable).

LONDON, June 9.

Mr. E. F. Benson's suggestion that the ice-axe discovered on Mount Everest indicates that Messrs. Mallory and Irvine reached the top, and lost the axe while descending is combatted by the Everest Expedition member, Mr. Odell in a letter to the "Daily Telegraph." He expressed the opinion that such a conclusion is in no way warranted at present, since in the upper part of Everest, there is a rock to climb for which the ice-axe was practically useless. Therefore either Mr. Mallory or Mr. Irvine may have dispensed with the axe before climbing.

CONWAY SUGGESTS NEW TACTICS.

Lord Conway in an article to the "Daily Mail" expresses the opinion that the right tactics for Mt. Everest would be "sapping" or establishing a solid base camp at 26,000 feet, then shelter at, say 27,500 feet, from where a final assault could be made under the most favourable conditions and this would doubtless involve two, three or even four years' effort.

If he was rightly informed, the present expedition was using some form of "sapping," and he was of opinion that, it is likely to be successful.

BUDDHIST SHRINES AT RAJGIR

Ceylon Buddhists Request Govt. To Transfer Them To Buddhists

The Executive Committee of the Congress of Buddhist Associations of Ceylon has received the following letter from the Secretary to the Government of India, regarding the appeal of the Ceylon Buddhists for the transfer of certain ancient Buddhist monuments at Rajgir to the Buddhists, was read:—

"I am directed to say that the Governor-General-in-Council has carefully considered your memorial dated February 14, 1933, on behalf of the Buddhists of Ceylon, praying for the transfer of certain ancient Buddhist monuments at Rajgir to the Buddhists but regrets that he is unable to accede to the request made therein. I am to point out that all the monuments including Buddhist remains at Rajgir have been notified as protected monuments and are receiving all the attention that is necessary. They are kept free from jungle and pathways have been constructed to them for the convenience of pilgrims. The Director-General of Arcraeology in India will be willing to consider proposals for any further reasonable improvements; but no new constructions which will mar the historical value or appearance of the monuments can be allowed upon these or any other protected sites. The Archaeological Department will, of course, have no objection to the construction of a temple or a resthouse upon land outside the excavated area at Rajgir which the Buddhists may acquire from private owners, just as has been done at Sarnath or Kusinara (Kasia)."

SPECIAL CASE OF BUDDHA GAYA

The following reply from the Congress of Buddhist Associations to the letter from the Government of India has been sent:—

"May it please Your Excellency,

We have the honour to acknowledge receipt of letter No. F.132-4 33-F, dated May 19, 1933, from the Secretary to the Government of India on the above subject.

May we thank Your Excelency for the directions contained in that letterfi and as pointed out we would communicate the Director-General of Archaeology in India proposals for further reasonable improvements within the protected sites at Rajgir.

Further adverting to our memorial dated February 14, 1933, in order to avoid any possible misunderstand in the futurue, the reference made in paragraph 2 therein to shrines in the possession of others was meant to indicate only the shrines within the City of Rajgir, and not to other sites in India sacred to the Buddhists and particularly to Buddha Gaya, which we the Buddhists in Ceylon consider should be restored to Buddhist control."

CONTROL OF GAMBLING IN BRITAIN

Organised Facilities Must Be Restricted, Says Royal Commission

LONDON, June 8.

Striking recommodations for the control of gambling in Britain are contained in the final report of the Royal Commission on Lotteries and Betting which concludes that the total turnover in betting to-day probably equals that at any recent date, and is much greater than at the beginning of the century.

The Commission recommends that while gambling among private individuals should not be interfered with, organised gambling facilities should be prohibited or restricted, where those facilities had serious social consequences.

The specific recommendations include the restriction of the number of days on which betting facilities may be allowed.

Legal facilities should be given for ready money betting off the course. Post cash betting should be made legal all bookmakers should be registered, tipsted business should be made illegal. The institution of large lotteries is described as undesirable.—Reuter.

CANDIDATE OF 'APOSTATE CONSERVATISM'

LONDON, June 9.

Denouncing the policy of "abandoning" India in a column long article in "The Daily Mail," Lord Rothermere describes Sir Edward Grigg as a "candidate of apostate Conservatism," at the Altrincham By-election, and declares that the "vote for Grigg is a vote for the loss of ruin of Lancashire and the loss of India."—Reuter.

Judge Refers Revision Application To Bench For Disposal

ALLAHABAD, June 8.

Mr. Justice Iqbal Ahmed referred to a bench of two judges the case of Babu Bisheswar Prasad Sinha, who was sentenced to 18 months' rigorous imprisonment at Benares under the Criminal Law Amendment Act, for helping the activities of an alleged unlawful association, namely, the All-India Congress Committee. His mother filed a revision application against the conviction.

Dr. Wali Ullah, Assistant Government Advocate, raised a preliminary objection on the ground that the accused himself was not the applicant, and no appeal had been preferred before the Sessions Judg. A similar point had been decided recently by Justice Kendall in the Babu Persottam Das case.

Mr. Justice Iqbal Ahmad was inclined to hold a different view, and His Lordship, therefore, feeling that the point was important referred it to a Bench of two judges for disposal.—A. P.

Compare "Cod-liver Oil" with "Cod-li-leu" and you will any day admit that "Cod-liver Oil" is an uncertain, unreliable and vile-tasting preparation.

Facts are not wanting to prove that the "feeling tone" of disgust or repulsion of a patient in swallowing any medicine very often nullifies its good properties. That "feeling-tone" applies pointedly to Cod-liver Oil. Thousands are dead inspite of Cod-liver Oil! Thousands more are dead because they refused to take it! FUTURE OF BHADRAVATI WORKS

Mysore M. L. C. Charges Authorities With Squandermania And Suggests Scrapping Or Sale To Private Agency

(From Our Own Correspondent).

(CAMP) Mysore, June 7.

At the Mysore Representative Assembly to-day, speaking on the budget estimates of the Mysore Government for the year 1933-34, Mr. Belur Srinivasiengar opined he could not see his way to congratulate the Government. The state had not done its duty by the people. Large sums of money were spent year after year on industrial concerns of doubtful utility. The result was that every year, the Government were faced with heavy deficits. So long as the Financial policy of the state was not influenced by the public vote, this state of things was bound to continue.

SCRAP IT.

Mr. Belur Srinivasiengar then observed that the mosey spent on the Bhadravati Iron Works was a waste. Large sums of money were written off every year and the speaker would point out that it was high time the Government should take a bold decision and either scrap the Iron Works or sell it to some private agency.

LAND ASSESSMENT.

The high rate of land assessment prevailing in the Kolar District was adversely commented upon by several members, to-day and they pointed out that the findings of the committee appointed to revise the dry rates in the Kolar District did not render any help to the ryots

The Government replied that they were not aware of any dissatisfaction on the part of the ryots as regards the assessment, but they were aware that the members of the District have been pressing persistently for the last 3 years that the Government should cause necessary action to be taken re: the re-consideration of this question.

That Responsible Government in the state was the only remedy for a proper adjustment of the state's finances was the view expressed by Mr. Hosokoppa Krishna Rao.

MODEL MILLS LOCK-OUT

Ruikar Exposes Wage-Cut Move Of Agents: Reply To Sir M. Dadabhoy

(From A Correspondent.)

NAGPUR, June 6.

Mr. R. S. Ruikar has issued the following rejoinder to Sir M. Dadabhoy's Reply on the Model Mills lock-out:—

I am surprised to read the statement issued by the Managing Agents as regards the lockout of the Model Mills. The statement is most evasive, full of inaccuracies and has tried to evade the real points in dispute.

Sir Maneckji is annoyed when I say that the present lock-out is a device to cut down the wages of the workers; but in his own statement, he has let the cat out of the bag.

In para 3 of his statement, Sir Maneckji refers to the wage-cuts effected at Bombay and other centres ranging from 15 to 25 per cent. and innocently asks how his Mill could compete with rival Mills when they were working with substantial reduction in wage. The conclusion is therefore irresistable that Sir Maneckji's real object is to effect a wage-cut so as to meet the competition of the rival Mills.

WHY NOT SHORT HOURS.

The one argument on the basis of which Sir Maneckji is justifying the closing down of the Mills is the accumulation of stocks and stagnation in the Trade." If the only difficulty, as Sir Maneckji wants us to believe, is the accumulation of stocks, then it was open to Sir Maneckji to curtail the production of the Mills by resorting to short hour working, no sooner it was found out that stocks were accumulating; but though Sir Maneckji complains that stocks have been accumulating for the last three months, he has obviously taken no serious steps to meet this contingency, except that of entirely closing down the mills and throwing out of employment 3,500 workers.

Moreover, if the stocks have really accumulated to an unprecedented extent, why are the Model Mills still making purchases of cotton in the market?

Sir Maneckji has hardly advanced any argument which would justify the proposed wage-cut. The workers opposed the wage-cut mainly on the ground that there is still room for economy in the Model Mills, that the Mills are overstaffed by higher Officials, and that there has been no progressive wage-cut in the salaries of the higher staff.

The Model Mill officers occupy palatial Bungalow free of asy charge. They are paid the medical charges whenever they require any outside medical help. The Managing Agents draw a fat Commissios of 29,000 a year. But the axe of retrenchment does not fall upon these highly paid officials and Managing Agents, but is only reserved for the poor workers.

SIR MANECKJI'S VOLTE FACE.

On the 5th of May Sir Maneckji was in favour of a Conciliation Board to settle the Dispute as regards the wage-cut; as a matter of fact, this was his own suggestion, at the first meeting I had with him after my release from Jail and that is why I myself, Sir Maneckji and the Deputy Commissioner had a conference at the Commissioner's Bungalow, and the Commissioner promised to convey our wishes to the Local Government. It was on the 29th of May that Sir Maneckji changed his mind and did not agree to a Conciliation Board. This will show how at the eleventh hour, Sir Maneckji went back upon his own definite suggestions and precipitated the present fight.

SUPPORT TO WORKERS.

I am glad to find that the public of Nagpur has whole heartedly supported the Union's demand for the appointment of a Conciliation Board, Mr. T. J. Kedar an ex-Minister of this Province and a present M.L.C., Messrs. Fuley and Jainarayan members of the Local Legislative Council, have supported the Union's demand.

A public meeting attended by tnousands of citizens of Nagpur and presided over by Mr. Samiullakhan, President of the Nagpur Municipal Committee has also backed our Union's demand. The entire Press of this Province has also demanded the appointment of a Conciliation Board to settle the Model Mills dispute. An almost unanimous demand is being made for the appointment of a Conciliation Board, and still Sir Maneckji is not agreeable to settle the Dispute. The public can judge as to who is in the wrong. If really Sir Maneckji has got a strong case for the present lock-out, why is he afraid of an open and independent enquiry?

The Inward Airmail arrived at 4 p.m. on Friday at Karachi.

INT COMMITTEE HINDUS AND JO

Dr. Moonje Says Maha Sabha Means To Safeguard Their Rights

POONA, June, 8.

Dr. Moonje in an interview stated that the Hindu Mahasabha was sending a delegation to the Joint Parliamentary Committee in order to safeguard the interests of Hindus. He added now that the Communal Award had been given by His Majesty's Government, it was no use trying to reopen this question by unity conferences.

If the Moslems thought their claims had been ignored the logical course for them was to approach the British Government. The Hindus had also the same course open, and it was for this purpose that the Mahasabha was sending its delegation. But while both the communities strove to safeguard their separate interests, they could both be united on the question of achieving Swaraj and Dr. Moonje added, if the Moslems were not prepared to join hands with the Hindus on this issue, the latter should fight single handed.

Speaking about untouchability, Dr. Moonje observed that the Mahasabha had never opposed giving more seats to the untouchables. Every attempt should be made to counteract the efforts to create divisions in the Hindu fold.

INTERVIEW WITH MAHATMA.

Dr. Moonje had about ten minutes talk with Gandriji late in the evening. He said that his visit to Mahatma was purely personal.—A. P.

What lovely hair!
long... soft...
lustrous...
because it's healthy!

THERE'S a natural spring and sheen about healthy hair that can't be imitated: but you can easily achieve it, simply by making sure that your hair is healthy.

It's quite easy. Brush and comb your hair regularly and thoroughly, and massage the scalp with Tomco Tonic or Oil or Lotion—whichever is needed—so as to stimulate the blood circulation round the roots. Then your hair will take on new life and beauty—it will positively gleam with health. Hair like that will add far more to your attraction than even the most skilful arrangement of dull, lifeless hair.

Here are details of four exquisite Tomco preparations for the hair which are most efficient and economical. Choose the one you need and start today to give your hair the beauty it should have.

Cocoanut Oil and Solidified Brilliantine

IF hot winds have dried your hair and made it brittle and harsh, or if your scalp and hair are naturally too dry—this perfumed Cocoanut Oil or Solidified Brilliantine is the ideal dressing: a fine, pure substitute for the natural oil of the head, giving the hair a beautiful healthy gloss without making it "greasy".

INDIAN MUSICIANS IN ROME

Performances Greatly appreciated By Public And Leading Personalities

Pandit Omkarnath Thakur and Prof. Romeshchandra Thakur, musicians of India, have arrived in Rome. They were welcomed by "The Lyceum" (an International Society) and leading personalities.

The Panditji and his brother have given very interesting demonstrations of Indian music at the Roman Lyceum Society before a large and distinguished audience.

Among those present were the ex-King and Queen of Afghanistan, who deeply appreciating their marvellous knowledge of music and invited them to a dinner party

The Indian songs accompanied by Indian instruments created a deep impression on the Roman public. The musicians in their most interesting programme displayed the beauties of the Ragas with perfect technique.

The critics of the leading papers spoke very highly of the artists, and of the way they were able with their music to create an atmosphere of warm sympathy and understanding around them.

It is not often that Rome has had such a great opportunity of hearing Indian music interpreted by Indian Musicians for whom music fulfills a spiritual mission.

OXFORD POLITICAL BAN REVOKED

All A Mistake Says Master Of Balliol

The ban placed by the Vice-Chancellor of Oxford University on a meeting arranged by the University Labour Club, with Miss Ellen Wilkinson as the speaker, arose through a mistake

This announcement was made in dramatic fashion by Mr. A. D. Lindsay, Master of Balliol and a Deputy Vice-Chancellor, to a great gathering, mainly composed of under-graduates of both sexes, at Oxford Town Hall.

Arrangements for the meeting were taken over by the Oxford City Labour Party after the Vice-Chancellor's edict.

While the audience was waiting for Miss Wilkinson—then struggling through a great crowd towards the doors of the hall—Mr. Lindsay jumped on to the platform.

MR. LINDSAY EXPLAINS

He denied that the authorities had banned the meeting because it was organised by Socialists or because Miss Wilkinson was the speaker.

Mr. Lindsay said that the University authorities never had any intention of changing the rules regarding public meetings organised by University societies.

"The fact that there was a difficulty about this meeting was due to something which happens even in the best regulated families—it happened through a misapprehension.

"It may conceivably be suggested," he went on, "that these remarks of mine are an indirect way of saying that the University authorities have changed their views and intentions owing to the pressure of inside and outside opinion. I hope people will trust me enough however, to believe this is a genuine mistake."

Among the crowd unable to gain admittance to the hall was Mr Tony Greenwood, the president of the Union and a former president of the Labour Club.

WOMAN MAKES DARING ESCAPE

Climbs Down 100Ft. Lightning Conductor

A woman has just made the most daring escape from prison ever recorded in Portugal.

Serving a sentence of 28 years' imprisonment for murder, she picked the lock of her cell high up in the prison, and opened a window in the corridor.

In preparation for her escape she had managed to make a rope of handkerchiefs, and, using this, she swung herself 12 ft. along the wall and grasped the lightning conductor.

She was still 100 ft. above the ground, but she climbed down the lightning conductor to the prison courtyard.

A 15 ft. wall stood between her and freedom—but she scaled that. At the last moment she was seen.

The alarm was sounded and warders rushed out.

But it was too late—the woman outdistanced her pursuers. She is still at liberty.

RAVIVARMA'S BEST INDIAN PLAYING CARDS

Late Mr. GANPATRAO NADKARNI

" Non - Cooperation " Leader Of Kanara Passes Away

"S. G. W." writes:—Mr. Ganpatrao S. Nadkarni whose death occurred in Bombay on Sunday last, illustrated in his life the greatness of small man, small not in the sense of the poverty of the mind, but in the sense that his prominence and activity were confined to a small district area. He was born in Sadashivgad in the district of Kanara, and even in his school days showed signs of beneficient public activity. After passing his School Final Examination, he successfully resisted the temptation of being drawn into the demoralising atmosphere of Government service, and joined the Sadashivgad English School as teacher, and soon made a very bright institution, infusing his own enthusiasm for social service into his students.

He was a special friend of the ryots and took a leading part in every movement for the amelioration of their conditions. He organised agricultural conferences, started co-operative societies for them, and established a good reputation within a short time, so much so that Government appointed him an Honorary District Co-operative Organiser. His work in the capacity won high praise both from Government and public and he came to be easily recognised as a responsible and trustworthy public leader.

CALL OF COUNTRY.

In 1921, Mahatma Gandhi's call for Non-co-operation reached him with a particular appeal. Mr. Nadkarni was from the very beginning a man of idealistic nature and his bent of mind was such that he would sacrifice wealth, position, status, for the service of his fellow-beings. He immediately gave up the Co-operative Organiser's post and joined the national standard under Mahatma Gandhi and rendered yeoman's service as leader of the movement in the Kanara district by great personal sacrifices for the public good.

When the Congress party decided to capture the local bodies, Mr. Nadkarni was elected Vice-President of the Kanara District Local Board and discharged his duties in a highly satisfactory manner. When again Mahatma Gandhi started his movement in 1930 by undertaking the historic Dandi March, Mr. Nadkarni resumed his charge in the Non-Co-operation rank was promptly arrested and punished with imprisonment and by the time he was released his delicate health completely shattered under the strain, and he developed what was considered to be sprue and even the best medical treatment in Bombay was unable to save him from the disease. He died at the young age of 42.

FRIEND OF POOR

In private life, Mr. Nadkarni was a loveable person. He was a pleasant companion and a faithful friend. Enemies as such he had none. He was the true disciple of Mahatma Gandhi and cultivated his gentle virtues with great diligence. His sincerity, his honesty of purpose, were never questioned by anybody. He was a pleasing speaker in public and spoke in Marathi with commendable eloquence. His memory will not be easily forgotten in Kanara, and the ryots especially, the poor and the needy, will cherish the name of their "Ganamaster" for years to come. He was an educationist who directed his earliest efforts to the spread of education in his district. He was a public worker whose life was spent in the uplift of his unfortunate fellow-beings. Above all, he was a patriot of a high order, and it will be long before Kanara will produuce so genuine a martyr to the cause of India's freedom.

America's Warmest Sympathy For India

They Do Not Believe In Miss Mayo's Aspersions: Moulana Shaukat Ali Speaks On His Tour Impressions

In a very delightful conversational lecture relating to his American tour Maulana Shaukat Ali spoke about characteristics of the Yankee and their opinion about Indians.

More than one American girl had confided to me, remarked the Maulana, that Indians make better husbands.

Remarking that America had evolved a wonderful system of organisation, he said that it was the key note of their power during the last decade but now America was afraid of another enterprising country, namely Japan.

The lecture was delivered under the auspices of the Muslim Students' Union at Blavatsky Lodge on Friday evening. Mr. Husseinali Rahimtoola presided.

HOLIDAY THOROUGHLY ENJOYED.

Giving his impressions about his tour in the land of dollars, the Maulana said that first he was disappointed with New York. But the very next morning, the Maulana changed his view when he saw the huge sky scrapers and the chaste architectures and he thoroughly enjoyed his holiday from India and all its political turmoil. He then described how the American lecture Bureaus arranged a series of lectures when he laid before the American audiences the true position in India.

EARNEST & WARM HEARTED.

During his three months' tour in America he was impressed with the earnestness and warm-heartedness of the American people and their respect and affection towards India. "Whether the audiences were big or small I told them nothing but the truth about Indian affairs," he added.

The Maulana said that every city in America had a club which welcomed lecturers and for each lecture the lecturer would be paid from Rs. 1,500 to 2,000 and had it not been for the financial depression, he said he would have brought back a considerable banking account.

ISLAM AND GANDHI.

The speaker said that he told his audiences the good that England had done to India as well as the 'mischief.' He told them about the wonderful Indian culture, the Hindu Muslim question, Islam and Gandhi. In spite of British propaganda in that country, the Maulana found that there were thousands of Americans who had the warmest sympathy for India's fight for freedom. Many of them had told the speaker "We study Indian affairs very carefully and have the warmest sympathy. In future we shall not look to the West for guidance but the East."

Proceeding, the Maulana said that he had met among others rackateers, gangsters and the under-world chiefs and made good friends with them. The Red Indians liked him so much that they nicknamed him "Thunder Hawk."

EARLY MARRIAGES GOOD.

The lecturer then spoke about American womenhood. At one meeting which the Maulana addressed there were several hundred boys and girls who put him questions about early marriages in India. He told them that early marriages were very good and if he were the Dictator of America he would sentence every young man of twenty-five years who was unmarried to six months rigorous imprisonment.

INDIANS, BETTER HUSBANDS.

He said that American women did not believe in the aspersions cast by Miss Mayo against Indians but many an American woman had told him that Indians make better husbands than Americans.

FREEDOM COMING.

In conclusion the Maulana exhorted the youth of India to cultivate charity and open-heartedness. "Have big hearts and imagination. We are passing through critical times. Join together and work for India's freedom. I see it coming," concluded the Maulana.

PEACEFUL EVOLUTION

Englishmen Can Still Play Big Part In Service, Says Sir A. Chamberlain

LONDON, June 9.

Among the opportunities in his life which he failed to grasp or felt obliged to decline, none left such a deep or ever-recurrent regret than the fact that when he was sounded on it, he felt obliged to say that he could not accept the Viceroyalty of India if it was offered to him. said Sir Austen Chamberlain in a speech at the Indian Civil Service Dinner in London last evening.

After paying tribute to the noble deeds and devoted service of the I.C.S., Sir Austen emphasised that securing the rights of the Civil Service was a necessary condition for launching a new system under favourable circumstances.

Sir Austen Chamberlain added, he was certain that the role of the Civil Service. though it might change, would not grow less. They might have to work by other methods and to persuade where their predecessors commanded, but the importance of the Civil Service and the Englishmen in them would not be less, but be greater owing to the changes which are progressing.

The New India required our best, whether as Viceroy, Governors or in the Civil Service, and the more power passed to our Indian fellow-subjects, the greater remained the part to played by Englishmen still in the service.

The changes now progressing were revolutionary, yet an evolution which they hoped would be accomplished peacefully and satisfactorily. It was an evolution in which it was impossible to erase, and still more impossible to retrace the steps of the past. Sir Charles Innes presiding, expressed the opinion that in the circumstances, the wise and only course would be to accept the general scheme of the White Paper.

There might be difficulties and grave dangers, but there were greater dangers still in going back on what been said and done, and in giving Indians much less than they had been led to expect.—Reuter's Special.

SOLDIERS FIND WATERY GRAVE

Details Of Quetta Tragedy

QUETTA, June 9.

Full details are now available of the drowning tragedy when two soldiers of the Royal Scots were drowned.

It appears that they wanted to go swimming to a raft in the centre of the Hanna Lake, and while halfway up, they started shouting for help.

Pte. Cuthbert of the same regiment dived from the shore and reached Pte. Mononomy who told him that he was all right and asked him to go and help Pte. Wilson.

By the time, Pte. Cuthbert had reached Pte. Wilson a boat from the shore also reached Pte. Wilson who put up his hand and tried to grasp a side of the boat, but had not the strength to hang on and so he went down. Ptes. Veitch and Taylor of the same regiment had in the meantime reached the boat. As soon as Pte. Wilson went down Ptes. Cuthbert, Veitch and Taylor all made several attempts but without success.

Meanwhile, Pte. McNonemy who had made for the shore probably collapsed on account of exhaustion and also went down.—A. P.

Undismayed By Criticism, He Makes Fresh Attacks

WHITE PAPER SCHEME

Much Concerned At Future Welfare & Advancement Of Indian Peoples

(Special Cable).

LONDON, June 9.

The contention that the supreme test whether the "welfare and advancement the Indian peoples" would be promoted was never applied by those responsible for the White Paper put forward by Sir Michael O'Dwyer in an article in the "Spectator" as a sequel to Lord Meston's article. Sir M. O'Dwyer challenges supporters of the White Paper to prove that it ensures external and internal security, pure and impartial justice efficient, progressive administration and light taxation.

He says:

"We (critics) hold all these essentials to be seriously jeopardised. But provided the British control of the central executive and provincial law and order is retained, we are willing to take the risk of transferring all the rest provincial administration hitherto reserved to the control of provincial legislatures."

Moonje Points Out Gandhiji's "Blunders"

Mahatma Should Not Have Called On Jinnah, He Says, And Urges Mahasabha Is Fighting Battle For Freedom

If the Muslims join the Hindus in their fight for "Swaraj" so much the better, we welcome them as milk does to sugar, if not the Hindus will fight the battle of Swaraj single handed, no matter, if it takes, six months, six years, or a hundred years".

With these words, Dr. B S. Moonje exhorted the Hindus to carry on the battle for Swaraj, which is being fought for years past.

The meeting was called under the auspices of the Bombay Presidency Hindu Sabha in the Marwari Vidyalaya on Friday evening and was presided over by Mr. Jamnadas M. Mehta.

BATTLE FOR FREEDOM.

Dr. Moonje traced the history of the battle for Swaraj to the last 700 years, long before the British came to India, after the defeat of Prithviraj Chauhan, the Rajput King, by the Muslims, and said when Mahatma Gandhi promised to attain Swaraj in six months in 1920, he could not believe in it, nor any sane person believed in it, unless, of course, it was attained by some miracle. It was not possible to win Swaraj from a civilised and intelligent people like British in six months and, therefore, he did not put value in the two planks of Mahatma Gandhi by which he wished to win "Swaraj", viz; Hindu Muslim Unity and the removal of Untouchability.

PLACATING MUSLIMS

How these two planks of Mahatma Gandhi were overthrown by Government, Dr. Moonje illustrated the "fact" by two instances.

Firstly, when the Unity Conference at Allahabad were haggling for three days to solve the communal problem, the Hindus agreed to 32 per cent. of seats for the Muslims in the Legislature. As soon as the news was flashed to England, the Government offered 35 per cent of seats to the Muslims, viz., over and above agreed upon by the two communities.

Then, the question of untouchability, which had remained unsolved for the last one thousand years, was not likely to be solved in six months. This was illustrated by the attitude that the Depressed Class Leader Dr. Ambedkar had taken up against the caste Hindus.

MAHASABHA'S "GURUS"

The Hindu Maha Sabha, said Dr. Moonje, had, therefore, resolved to make Englishmen as their "gurus" (teachers) and learn lesson of tenacity from them and wage war for freedom as the Englishmen did against France for 100 years until France was defeated.

He regretted that Mahatma Gandhi, while in England during the second Round Table Conference, agreed to the arbitration of communal question by the Premier. That was the greatest blunder he did in England. The second "blunder" he committed was to go to Mr Jinnah, instead of asking Mr. Jinnah to see him at his residence to settle the communal question.

GIVING JINNAH IMPORTANCE.

It is was very unlikely that the decendents of Hastings and Clive would help India in solving the communal question. Besides, Mahatma Gandhi's calling on Mr. Jinnah gave importance to Mr. Jinnah in the eye of the English public, who looked upon Mahatma as inferior to Mr. Jinnah.

Dr. Moonje urged all the communities in India to rally round the Hindu Maha Sabha in their battle for freedom for India and he assured them equal measure of justice regardless of caste or creed. Even if other communities did not join the Hindu Maha Sabha in that battle, he said, the latter would all the same continue it, regardless of the time, no matter even if it takes a hundred years.

Lastly, he assured his audience that he was going to England not as a communalist but as an advocate of unity and freedom for Mother India.
